Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On January 12, 2022, the agency received a report regarding a 3-week-old infant brought to the hospital with multiple injuries. Law enforcement was contacted and initiated a criminal investigation. Medical professionals determined the injuries were non-accidental in nature. As a result of law enforcement's investigation, the child's mother and maternal grandmother were both charged with Chronic Neglect of Child (Consequence is Great Bodily Harm). A criminal charge is merely an allegation, and a defendant is presumed innocent until and unless proven guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of neglect to the infant by the mother and maternal grandmother. Medical professionals determined the injuries were non-accidental in nature. The infant was deemed unsafe, taken into Temporary Physical Custody, and placed with a relative. The infant's siblings did not reside in the home, and they remained in the care of the father. The mother was court-ordered to have no contact with the infant. A Petition for Protection or Services was filed, and the case remained open to provide ongoing case management services.
