Case Tracking Number: 110228DSP-Milw-202 **Agency:** Bureau of Milwaukee Child Welfare

Child Information (at time of incident)

Age: 2 months Gender: Female Male

Race or Ethnicity: Asian

Special Needs: None

Date of Incident: 1/28/11

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On 1/28/11, the agency received a report regarding an infant who had been admitted to the hospital with suspicious injuries. The medical examination showed the baby was experiencing chronic subdural hemorrhage as well as acute subdural bleeding. He also had extensive retinal hemorrhages to his right eye and suffered multiple seizures due to his brain injuries, in addition to a healing fracture of his left tibia. The parents reported that the baby's 7-year-old half brother had dropped the baby while holding him. Medical professionals stated, however, that the baby's injuries were not likely the result of such a fall, but rather were consistent with non-accidental trauma. The father recently admitted to causing the baby's injuries. He has been arrested and charged with 2 counts of Child Abuse – Intentionally Cause Great Bodily Harm. A criminal charge is merely an allegation and a defendant is presumed innocent until and unless proven guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency screened in and assessed the allegation of physical abuse to the 2-month-old child. The agency substantiated physical abuse to the infant. While in the parent's care, the baby suffered trauma consistent with child abuse which neither parent could explain. Additionally, the agency received a report stating the 7-year-old had diagnoses of bronchiectasis and asthma that required multiple medical appointments and at home care, which the parents were not following through with. The agency screened in, assessed, and unsubstantiated the allegation of neglect by the parents to the 7-year-old. While the child's diagnoses of bronchiectasis and asthma pose a risk to him, it is unclear whether the parents' lack of follow through on his medical care seriously endangered his physical health. Due to the serious nature of the baby's injuries and uncertainty of the maltreater, both children were taken into temporary physical custody and placed in out-home-care.
