Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On February 4, 2022, the agency received a report regarding a 5-month-old infant who was pronounced deceased on January 1, 2022. (The agency responded immediately upon receipt of the report; however, due to a technical issue, the notification was not received until July 12, 2022.) The Medical Examiner's Office noted the infant had controlled substances in his system; the autopsy report is pending. Law enforcement was contacted and initiated a criminal investigation. No criminal charges have been filed, and the case was closed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. After the Initial Assessment and additional review by the agency, it was determined there was insufficient evidence to substantiate neglect of the infant by the infant's grandmother. The Medical Examiner's Office noted the infant had controlled substances in his system; the autopsy report is pending. The agency determined the infant's siblings safe, and they remained with their mother. The family was referred to community services, and the agency closed the case upon completion of the Initial Assessment.
