DCF Laptop
Smart Card Login to VDI

How to login with smartcard to your VDI

1) **Run the VMware Horizon software as you typically would**
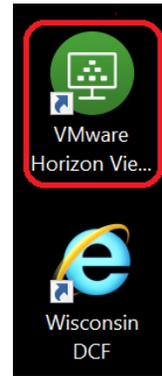

2) **You will get a prompt to select your certificate**
   a. **Click more choices**

   > **Windows Security** ✕
   >
   > **Select a Certificate**
   >
   > dcf15164
   > Issuer: SOW Issuing CA
   > Valid From: 12/9/2019 to 12/8/2021
   > Click here to view certificate properties
   >
   > More choices
   >
   > OK   Cancel
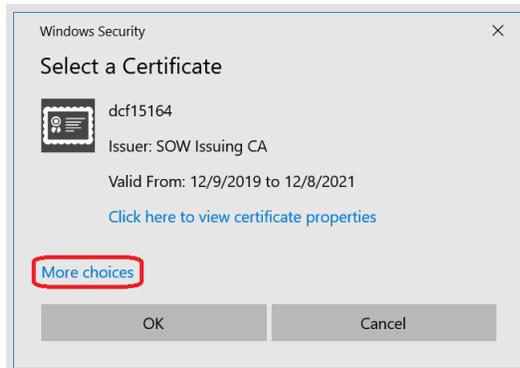

3) **Select your certificate; it will have your "Last name, First name" as part of the title**
   a. **Click OK**

   > **Windows Security** ✕
   >
   > **Select a Certificate**
   >
   > Authentication - MadisonLab18
   > Issuer: SOW Issuing CA
   > Valid From: 5/30/2019 to 5/29/2022
   > Click here to view certificate properties
   >
   > More choices
   >
   > dcf15164
   > Issuer: SOW Issuing CA
   > Valid From: 12/9/2019 to 12/8/2021
   >
   > Authentication - MadisonLab18
   > Issuer: SOW Issuing CA
   > Valid From: 5/30/2019 to 5/29/2022
   >
   > OK   Cancel
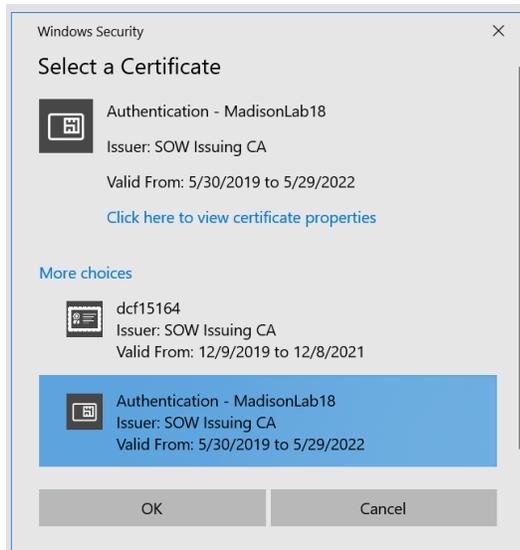

4) Enter your PIN, click Login
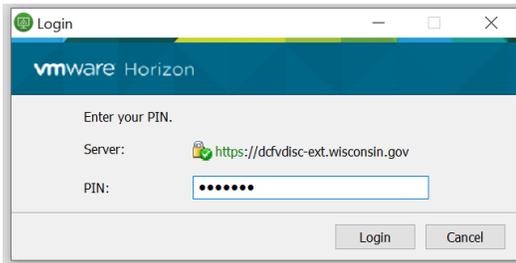

5) If successful, open your VDI
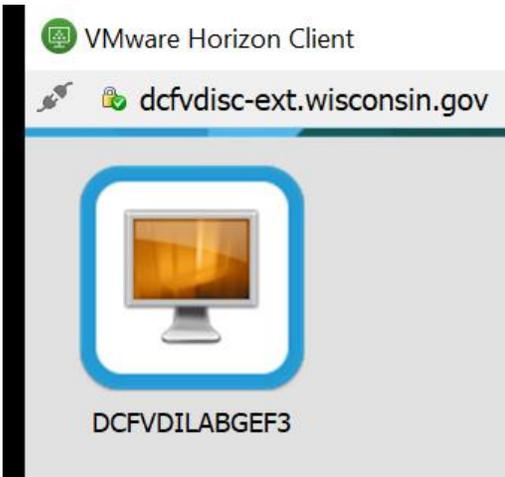

If you have problems logging in to VDI with your smart card, you can use the Digipass method by using the icon "VMware Digipass Backup", and proceed to login to your VDI as you had previously.
