

eWReports Dashboard

7 Outcome Measurement Reports will be available through eWReports (currently accessed from the eWiSACWIS Outliner) in a graphical display. You will be able to look at both statewide and county specific performance data for the following measurement types.

Time to Reunification (sm10a22)
Placement Stability (sm10a25)
Median Length of Stay (sm10a21)
Time to Adoption (sm10a20)
Re-entry into OHC (sm10a24)
Recurrence of Maltreatment (sm06a03)
Maltreatment in Out-of-Home Care (sm10a23)

Outcome Measurement Report Definitions

Time to Reunification - Definition of Measure

CFSR National Standard:

Of all children reunified with parents or caretakers, 76.2% or more are reunified within 0 to 12 months from the time of the latest removal from the home.

Source of Data:

SM10a22 Time to Reunification Report - Based on Data entered in eWISACWIS, and available via eWReports.

- The Time to Reunification report presents summary and child-level detail for all discharges from out-of-home care, including discharges to reunification. Results are based on a 12-month period including all children discharged from care. The report presents summary data by specific time intervals based on the child's most recent removal from home to the point of discharge. Child level detail includes demographic information and placement history by county, site or region, supervisor and worker.
- Frequency of Report : Annually, Quarterly (run on third Thursday after end of quarter), On Demand.

Population used in Dashboard Graphs:

Children discharged from Out of Home Care within the reporting period for the purpose of Reunification with Parents/Primary Caretakers.

Description of Performance Calculation:

Number of children reunified within 0 to 12 months from the time of the latest removal from the home, divided by the total number of children reunified within the reporting period (regardless of the length of episode).

The reunification data comes from the out-of-home placement history of children as recorded in eWISACWIS, with the beginning of an episode marked by a new removal from home and the end of an episode marked by a discharge from care with the reason for discharge being reunification.
