Instructions to Consultation Team

Please rate the **child's current legal permanency status** based on the Ongoing Case Manager and Supervisor presentation and clarifying / exploring questions before beginning to discuss any specific strategies or actions to take following the consultation (Brainstorming, Phase IV). This rating scale must be completed by the team. This scale will be used to update the child's permanency status periodically.

Child's Current Legal Permanency Status [Scale adapted from Human Systems and Outcomes, Inc., scale used in Indiana Quality Service Review Protocol (2007)].

Rate the child's **current** legal permanency status as described below based on existing evidence.

Child has legal permanency (reunification with safe case closure expected, adoption, or legal guardianship).	<input type="checkbox"/> Permanency achieved
Child is in a family setting that the child, the caregivers, and the casework team believe is lifelong, and the caregivers and child are committed to formalizing the relationship through adoption or transfer of guardianship; – OR – Child is in a stable living situation with own parents (not a trial reunification) and identified safety threats have been eliminated.	<input type="checkbox"/> Very good permanency status
Meets criteria of "Very good permanency status" but in accordance with policy a consultation is not required.	<input type="checkbox"/> Very good permanency status – No consultation required
Child is in a family setting that the child, caregivers, and case workers believe is lifelong; a plan is in place to maintain safety and stability; the child, if old enough, and the caregiver(s) are committed to the plan; and adoption / guardianship / reunification issues, if any, are near resolution. – OR – Child is in a stable living situation with own parents (not a trial reunification) and identified safety threats are being controlled through an in-home safety plan.	<input type="checkbox"/> Good permanency status
Meets criteria of "Good permanency status" but in accordance with policy a consultation is not required.	<input type="checkbox"/> Good permanency status – No consultation required
Child is in a family setting that the child, caregivers and case workers believe could endure lifelong; a plan is in place to ensure safety and stability are achieved, and the child, if old enough, and the caregiver(s) are committed to the plan; and adoption / guardianship / reunification issues, if any, are being addressed; – OR – Child is in temporary placement but a transition is planned and child is ready to move to identified safe, appropriate, caregivers who are willing to provide legal permanency; a child and family plan for safety and permanency is being implemented; and the child, if old enough and caregiver(s) are committed to the plan.	<input type="checkbox"/> Fair permanency status
Child is in a family setting that the child, caregivers and casework team feel could endure lifelong, a plan to achieve safety and stability is being developed, and it is uncertain if the relationship will be formalized legally. – OR – Child is in temporary placement, and likelihood of reunification or a legally permanent home is uncertain; adoption / guardianship issues are being assessed; and concurrent permanency plans, if any, are uncertain or problematic.	<input type="checkbox"/> Uncertain permanency status
Child is living in a home that is not likely to endure or is moving from home-to-home due to safety and stability problems, failure to resolve adoption / guardianship issues, or because the home is unacceptable to the child; – OR – Child remains in a temporary home without a realistic or achievable legal permanency goal; and concurrent permanency plans, if any, have stalled or failed.	<input type="checkbox"/> Poor permanency status

Brainstorming

Please consider the following questions during Phase IV: Brainstorming

What will it take to achieve permanency?
[Redacted]

What can we try that HAS been tried before?
[Redacted]

What can we try that has NEVER been tried before?
[Redacted]

How many things can we do concurrently?
[Redacted]

How can we engage the youth in planning for permanence?
[Redacted]

Action Steps

Action – The Specific Task Planned	Assigned To	Target Completion Date	Status
[Redacted]	[Redacted]	[Redacted]	[Redacted]

Systemic Barriers Identified

Barrier Category	Barrier Type
[Redacted]	[Redacted]

Next Consultation Date: [Redacted]
