

UU50 Hearing Cancelled

The Governor vetoed the provision in the budget repair bill that would prohibit the Department from implementing the child care underutilization policy and directed the Department to suspend the emergency rule through June 30.

The public hearing on the proposed and emergency rules affecting DWD 56, child care enrollment underutilization, scheduled for Monday, May 19, 1:30 pm at the GEF 1 Building is cancelled.

The emergency rule will be withdrawn. The Department of Children and Families will retain the authority to implement the rule in the next fiscal year (beginning July 1) given the possibility of a funding shortfall next year.
