

Childcare Subsidy

Fraud Detection & Investigation

**Web Intelligence (WebI)
Monitoring Reports**

Welcome to the Department of Children and Families (DCF) Child Care Subsidy Web Intelligence (WebI) Monitoring Reports and User Guide.

The purpose of this document is to provide you with a brief description of available reports relating to the Wisconsin Shares Child Care program. All data is directly from the department's Child Care Data Warehouse. Updates to the warehouse are done after Saturday's issuances.

If you have a request for data that is not available within WebI or have a need for a new report please contact your local Bureau of Regional Operations (BRO) Child Care Coordinator. The coordinator will then work with department staff.

This guide is updated regularly so be sure to check back often before you contact BRO for any additional report requests.

Instructions to get access to Web Intelligence

In order for you to get access to Business Objects (WebI), you must complete the **WISDOM APPLICATIONS REQUEST** form and have it signed by your supervisor and/or security officer.

<http://dcf.wisconsin.gov/forms/doc/13916.doc>. The instructions are on the back of the form.

To access Business Objects Web Intelligence (WebI)

From the DCF Home page, click on **Early Care and Education**

From within Early Care and Education, click on **Wisconsin Shares – Child Care Subsidy Program**

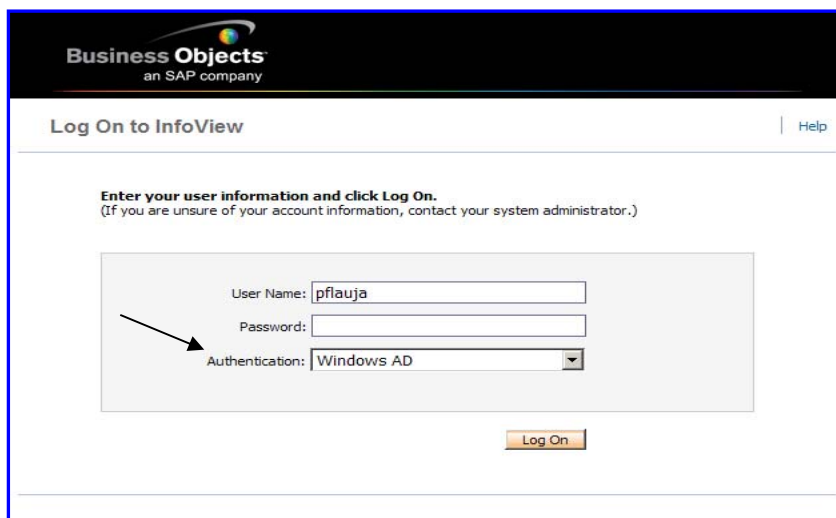

Scroll to the bottom of the page and click on the **WEBI Monitoring Reports** from within the **Administration – Local Agencies** heading.

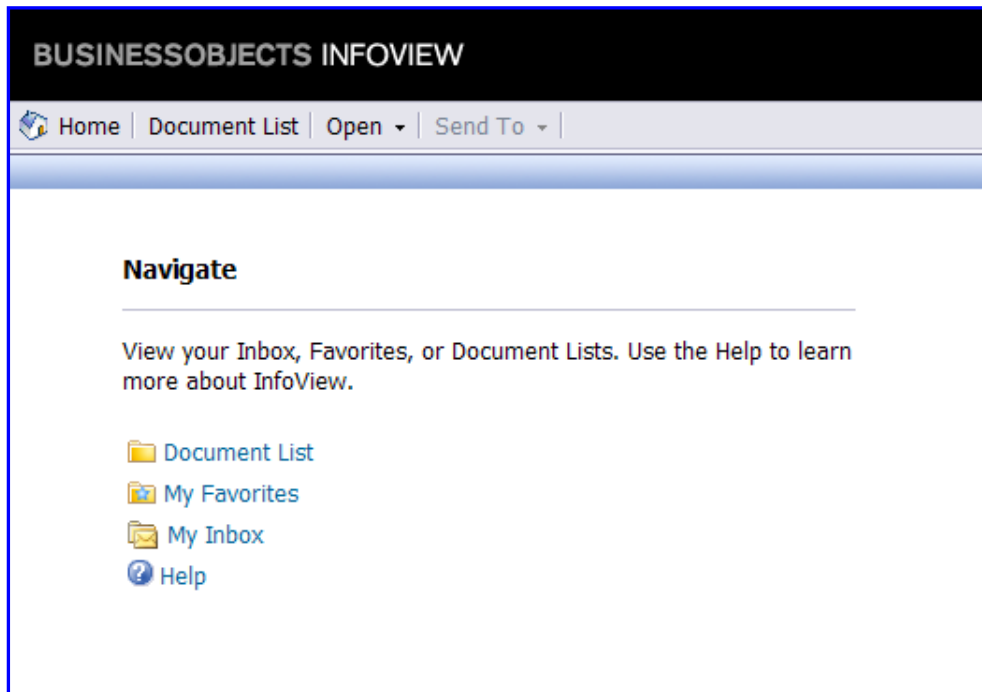

The URL is: <https://webi.dwd.state.wi.us/InfoViewApp/logon.jsp>

Log in by using your username and password. For **Authentication** - DCF employees must use **Windows AD**. All others must use **Enterprise**.

Click on the Document List folder

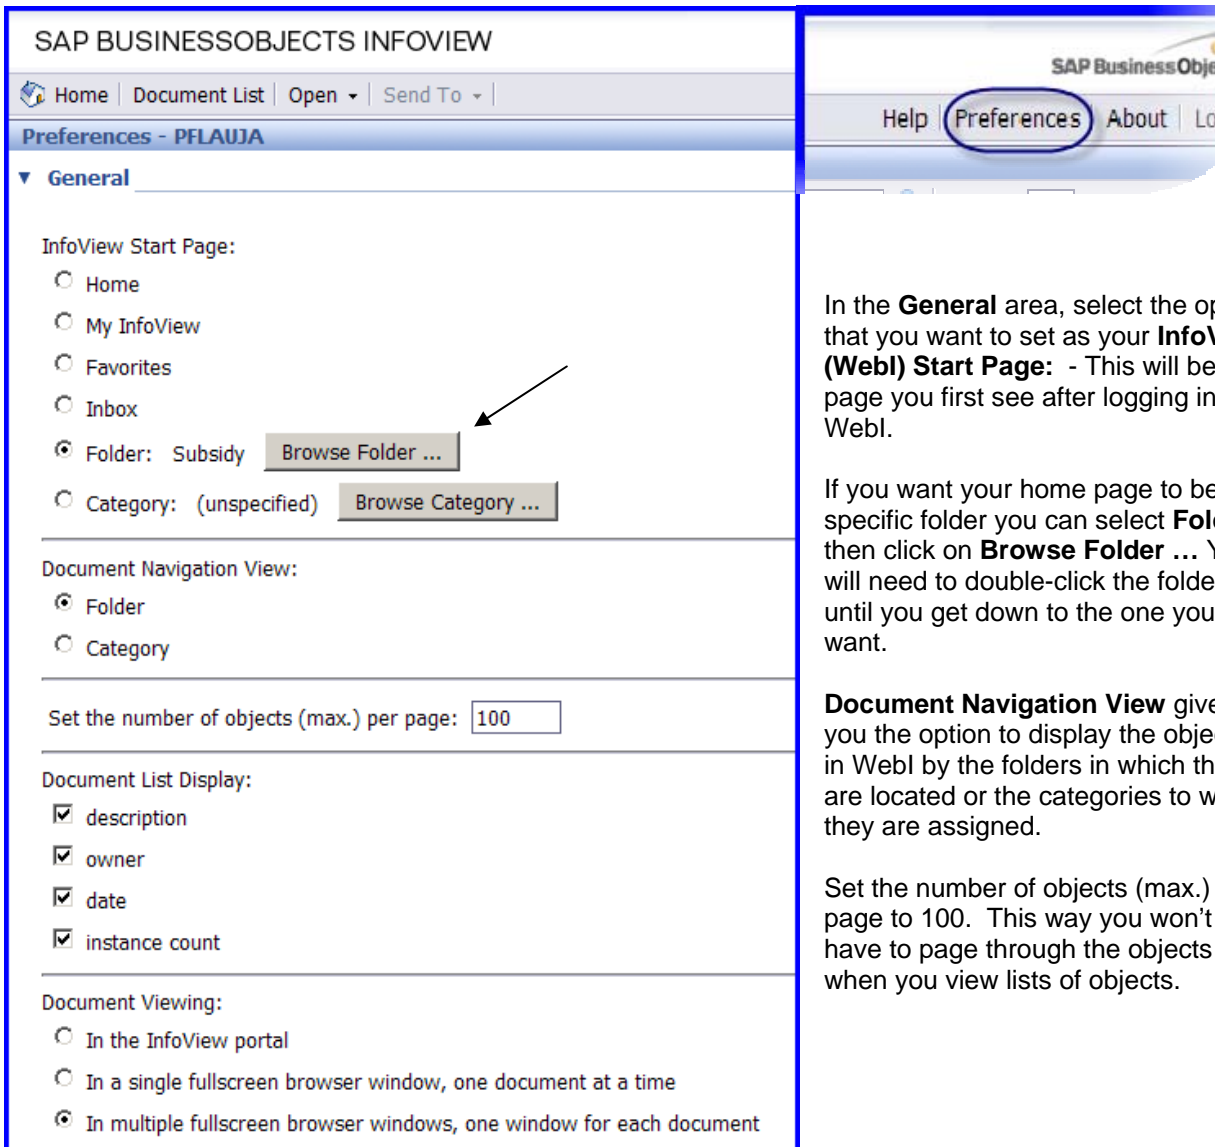

WebI (InfoView) User Preferences

I recommend that you set the Web Intelligence preferences to suit your query and/or reporting needs within WebI. Here are a few of my general preferences.

Log in to InfoView.

On the top right of the screen choose **Preferences**

The screenshot displays the SAP BusinessObjects InfoView Preferences dialog box. The 'General' section is expanded, showing the following settings:

- InfoView Start Page:**
 - Home
 - My InfoView
 - Favorites
 - Inbox
 - Folder: Subsidy
 - Category: (unspecified)
- Document Navigation View:**
 - Folder
 - Category
- Set the number of objects (max.) per page:** 100
- Document List Display:**
 - description
 - owner
 - date
 - instance count
- Document Viewing:**
 - In the InfoView portal
 - In a single fullscreen browser window, one document at a time
 - In multiple fullscreen browser windows, one window for each document

An inset image shows the top right of the InfoView interface with the 'Preferences' menu item circled.

In the **General** area, select the option that you want to set as your **InfoView (WebI) Start Page**: - This will be the page you first see after logging into WebI.

If you want your home page to be at a specific folder you can select **Folder**: then click on **Browse Folder ...**. You will need to double-click the folders until you get down to the one you want.

Document Navigation View gives you the option to display the objects in WebI by the folders in which they are located or the categories to which they are assigned.

Set the number of objects (max.) per page to 100. This way you won't have to page through the objects when you view lists of objects.

When you click on Web Intelligence, I have set my preferences to the following:

Preferences - PFLAUJA

► **Web Intelligence**

Select a default view format:

- Web (no downloading required)
- Interactive (no downloading required)
- PDF (Adobe AcrobatReader required)

When viewing a document:

- Use the document locale to format the data
- Use my preferred viewing locale to format the data

Select a default creation/editing tool:

- Advanced (Java 2 required)
- Interactive (no downloading required)
- Desktop (Web Intelligence Rich Client required)
- Web Accessibility (508 Compliant)

Select a default Universe:

No default universe

Drill options:

- Prompt when drill requires additional data
- Synchronize drill on report blocks
- Hide Drill toolbar on startup

Start drill session:

- On duplicate report
- On existing report

Select a priority for saving to MS Excel:

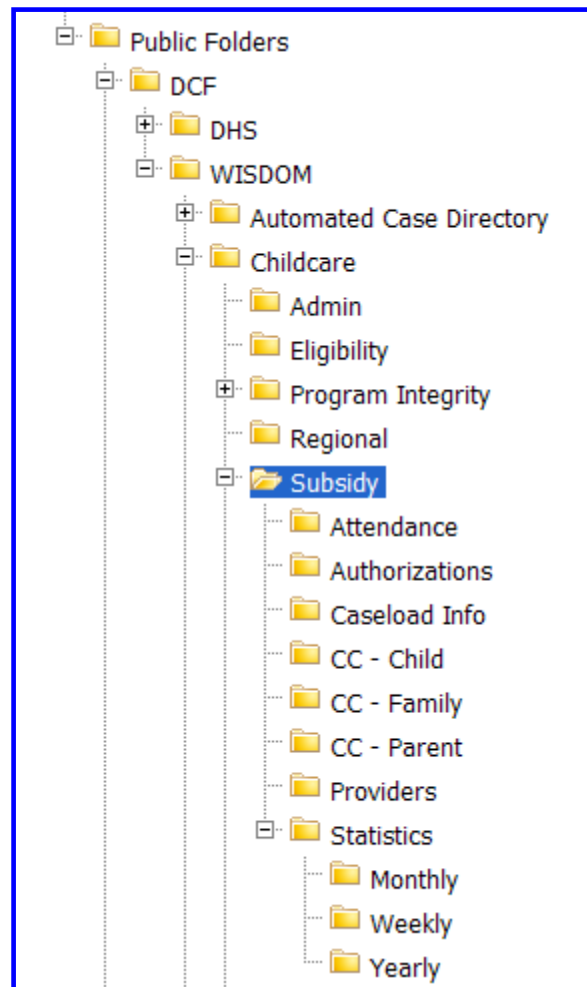

- Prioritize the formatting of the documents
- Prioritize easy data processing in Excel

When you are finished with the preferred settings - Click **OK**.

DCF's Child Care Folder Structure

You will only see the folders which you have permissions to.

Please note: Most users have access to the **Subsidy** folder within Childcare. Other folders may have restricted access. For example, the **Program Integrity** folder is used by the department's child care Fraud Detection and Investigation (FDIU) staff. Non-FDIU staff would not have access to that folder.

Most users have access to the **Subsidy** folder and subfolders.

Drilling and filtering document data

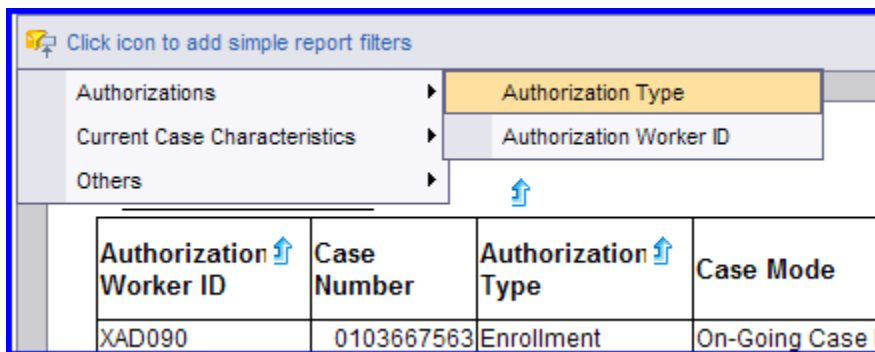

When available, you can drill down on document data to show the data beneath charts and summarized groups.

Open the document that you want to view. I am using the report within the **Subsidy** folder called *CC Current Authorized Cases by Select County*. I selected a couple of counties from the user prompt.

On the very top right corner of the screen click **Start Drill mode**  You will now notice that above your report you will see this:

Click on the  icon. You will see a list of available filters you can use. I clicked on Authorizations – then I selected *Authorization Type*.

Since I selected Authorization Type as a simple report filter, I can now filter all by selecting it from the drop down box. You can add additional filters as well by repeating the steps.

If this is not what you want to drill to, you can always “undo” your previous actions by selecting  from the toolbar.

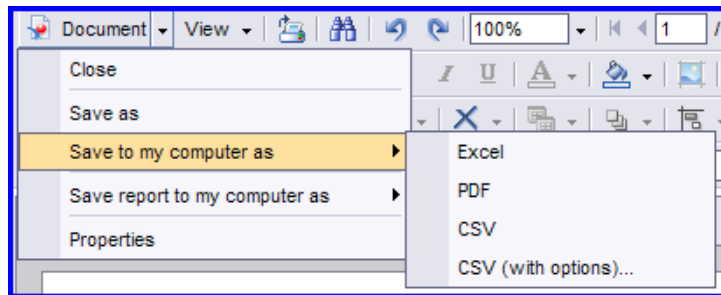

If you *hover* your mouse pointer over the arrow, you can see the next drill level. For the Issuance Month-Year, you can drill up to the Issuance FY. Then when you hover over it again, you can actually drill up to the issuance date.

Saving Documents & Reports

You have some flexibility within WebI to save reports & documents.

On the upper left hand of the screen, click on the drop down arrow next to **Document**

You can save the entire document by clicking
Document

Save to my computer as

Choose Excel, PDF, CSV or CSV (with options)

You can also save just the **current** document to either PDF or Excel by selecting **Save as**

To move within the pages of a report

To move within the pages of each report, use the navigational bar at the top of the screen. This will show you what page you're on and how many pages there are for that particular report. You can also go to the very beginning of the report or the very end of it as well.

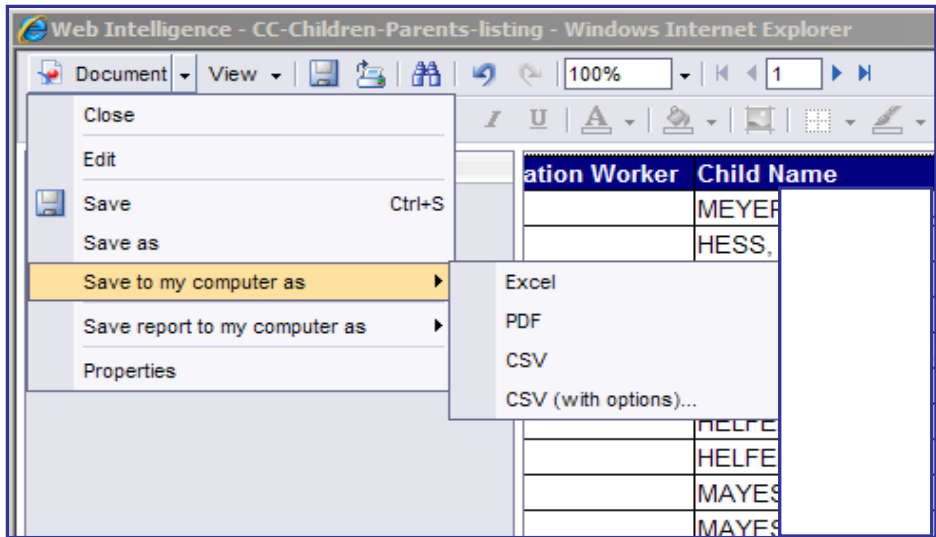

To save a report as an excel file

Choose Document

Save to my computer as

Select Excel

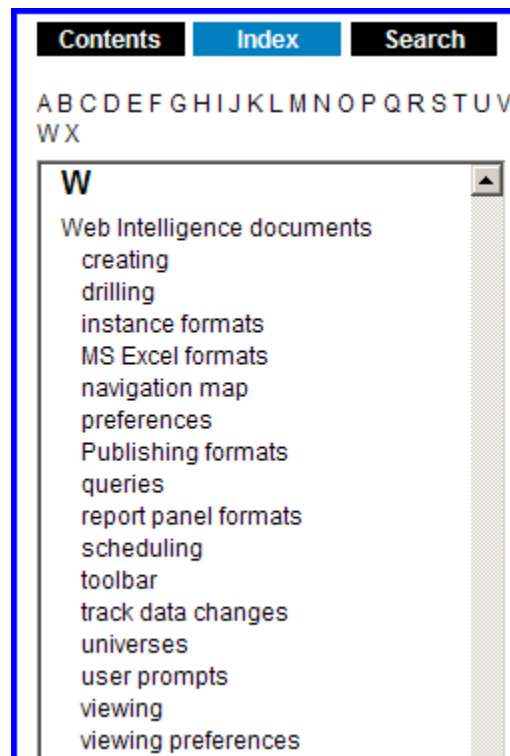

For Additional WebI Help

To get additional *help* click on **Help** from with the application located at the top right-hand of the screen. Once clicked, choose **Index**, and then click on the letter **W** (for Web Intelligence). You will find useful information

Once clicked, choose **Index**. Click the letter **W** (for Web Intelligence). You will find a lot of useful information.

Listing of Childcare Reports and Descriptions

Childcare

Admin

CC Certified Providers Serving Employee Children

This is a report that lists certified providers by County that are potentially out of compliance due to having parent employee children. The counties listed first that do not have a name associated with it are out of state providers.

The variables included in this report are

- Location County Name
- Category
- Provider Number
- Business Name
- Provider First Name
- Provider Last Name
- Prvd-Loc Number
- Parent Employment Report Date
- Child Parent Employment Percentage
- Parent Employment Case Count
- Total Authorized Child Count

CC-Monthly-Issuances-Incentives

This report is a copy of CC Monthly Issuances but this one is used by Program Integrity. The first tab (Served by CARES) shows detail & total counts for served families, children, total issuance, cost per child & calculation for incentive payment (total children/# of prvds*cost per child*1.5). The second tab breaks it down by provider location category. The third tab shows summary by County. The prompts are: Issuance Month/Year and Provider location number (optional).

There are two user prompts for this query.

1. Issuance Month-Year
2. Provider Location Number (optional)

Eligibility

No Reports at this time.

Regional

CC 40 Parent Employment Trend

This is a report that lists providers by County that have positive parent employment percentages and the trend between the first and second prompted dates.

CC 40 Percent BCCA BRO

This is a report that lists providers by County that are potentially out of compliance with the 40 percent ruling. The counties listed first that do not have a name associated with it are out of state providers.

CC Certified Providers Serving Employee Children

This is a report that lists certified providers by County that are potentially out of compliance with the parent employee children. The counties listed first that do not have a name associated with it are out of state providers. The month represents the monthly snapshot of the percentage of children whose parents are employed by the provider.

CC KidStat Biweekly Reports

CC KidStat Quarterly Reports

Subsidy

Attendance

CC-Provider Attendance Query

This report is used to verify attendance information. Prompts for this report are Provider Attendance Dates (between) and Provider Location Number

The variables included in this report are

- Provider location number
- Child's Name
- Child's DOB
- Case Number
- Attendance Begin Date
- Authorized Week Hours
- Attended Hrs
- Paid Hrs
- Issue Amount

- Authorization Type Code (A=Attendance; E=Enrollment)

CC-Provider Attendance Query (Extended)

This report is a variation of the CC-Provider Attendance Query except more information is included. Prompts for this report are Provider Attendance Dates (between) and Provider Location Number. This one separates the Child's First and Last Name and includes additional information as CC-Provider Attendance Query

The difference between Provider Attendance Query and Provider Attendance Query-Extended....

WebI - Provider Attendance Query

Provider Attendance Query

Prvd-Loc Number
Child's Name
DOB
Case Number
Attend. Begin Dt
Auth Week Hours
Attended Hrs
Paid Hours
Issue Amt
Authorization Type Code

Provider Attendance Query-**Extended**

Prvd-Loc Number
Child Last Name
Child First Name
Child Date of Birth
Case Number
Authorization Type Code
Issuance Type Code
Attendance Begin Date
Auth Week Hours
Attended Hours
Additional Authorized Hours
School Closed Week Hours
Paid Hours
Issuance Amount

You can **refresh** the values for each prompt and select from within the box **or** you can type the date manually.

If you don't know the entire provider location number, you can enter part of the number then click on the binoculars to **search** for ones that match the pattern.

You can now save this report as an excel file by selecting Document then Save to my computer as Choose Excel

Authorizations

Current Authorization Utilization

This report compares current authorization hours to attended hours and list provider locations where there are utilizations above 90%. **Be patient** as this report takes a few minutes to run.

There is one *optional* prompt in this report which is provider ID.

This report will run for all counties. You can now *filter* by selecting the box next to the county name. After running the query, your screen should look like this screen shot (see below). However, if it doesn't, you will need to click on the little arrow to expand the filtering for the selection(s) of county.

The screenshot shows the 'Input Controls - Authorization Utilization Summary' interface. On the left, there is a 'Location County Name' dropdown menu with a list of counties from 01 to 17. A blue circle highlights a small arrow icon next to the list, indicating it can be expanded. The right pane shows the 'Authorization Utilization Summary' table with the following columns: Provider Number, Provider Location, Authorization Number, Case Number, Auth Week Hours, Paid Hours, and Utilization Percent. The table is currently empty.

Select Authorization Utilization

This report compares authorized hours to attended hours based on Attendance Begin and End Dates and Provider Number. This report lists provider locations where there are utilizations above 90%. The input parameters are Attendance Begin and End Dates and Provider Number.

CC Current Authorization Count Greater than 2

This report lists a count of current authorizations that are greater than two for a provider.

There are no user prompts in this report.

The fields in this report are:

- Location County Number
- Provider Location Number
- Business Name
- Provider First Name
- Provider Last Name
- Child PIN
- Auth Week Hours
- Authorization Number
- Authorization Worker ID

CC Current Authorized Cases by Select County

This report is a listing of current authorized cases & Child PIN number for select counties. There are two tabs within this report. The first tab shows detail information. The second tab is grouped by Case Number.

The only prompt in this report is County.

The fields in this report are

- County Name
- Authorization Worker ID
- Prvd-Loc Number
- Case No
- Child PIN
- Auth Type (Enrollment or Attendance)
- Authorization Begin Date
- Authorization End Date
- Authorized Week Hours
- Case Mode

CC Current Authorized Hours Greater than 50

Here is a brief summary of the policy regarding maximum hours for authorizations:

Per Child Care Manual, Chapter 3 (3.6.6), authorizations should not exceed 50 hours. A Full-Time Authorization is considered to be 35-50 hours. Children who need more than 50 hours per week of care may receive two authorizations, one full time and a second for the balance of time needed:

For Enrollment Based Auths (Licensed Provider): enter one authorization for 50 hours and a second for the remainder of the time needed.

For Attendance Based Auths (Licensed Provider): enter one authorization for 35 hours and a second for the hours over 50 that are needed.

For Certified Providers: enter one authorization for 50 hours and a second for the remainder of the time needed.

The report is intended to be saved as an excel spreadsheet. Data included in this report are:

- County Name
- Prvd-Loc Number
- Business Name
- Provider First Name
- Provider Last Name
- Case No
- Auth No
- Auth Type
- Category (provider)
- Auth Wk Hrs
- Authorization Begin Date
- Authorization End Date

CC Current LGRP Attendance Based Authorizations

Listing of all current Licensed Group (LGRP) Attendance based open authorizations by county including auth begin and end dates.

There are no prompts within this report

CC LGRP Attendance VS Enrollment by Month Year and County

This is a report that shows the number and percentage of attendance based authorized authorizations for licensed group centers by County for the month selected.

There are two prompts within this report

1. Year-Month
2. County Name (optional)

Caseload Info

CC-Children Parents Listing

This report contains summary information of children served for a specific calendar year and county based on *issuance calendar-year*.

The report is intended to be saved as an excel spreadsheet. Data included in this report is

- County
- Case Number
- Child PIN
- Authorization Worker ID
- Child Name
- Primary Person PIN
- Primary Person Name
- CC Eligibility Worker
- Issuance Calendar year

CC – Child

CC Child WO SSN after 200 days from DOB

This is a report that lists current open authorizations by select counties who have children that do not have a DOB on record after 200 days from their date of birth. There are two tabs within this report.

1. Current Authorizations (this is grouped by County)
2. Current Authorizations-Detail (No grouping)

Data included in this report are:

- County Name
- Authorization Worker ID
- Child Name
- Child Date of Birth
- Case Number
- Child PIN
- Current Date (which is used for the > 200 day calculation)
- Diff (days between current date and Child DOB) > 200
- Child Primary SSN
- Authorization Type
- Case Mode
- Auth Week Hours
- Authorization Begin Date
- Authorization End Date

Providers

CC Current Provider Address Listing

This report is a listing of current providers (based on last Saturday issuance date) with category begin and end dates, address, contact and phone numbers by select County (optional) and Provider Category (optional). If variables are not selected this report will be run statewide for all categories.

There are two “*optional*” user prompts for this query.

1. Provider Location County Name
2. Provider Category

The fields in this report are

- Location County
- Category
- Category Begin and End Dates
- Provider No
- Business Name
- Contact Name
- Provider First and Last Name
- Facility Name
- Address
- City, State, ZIP
- Phone Number

CC Subsidy Provider Address Listing

This report is a listing of subsidy providers that had an issuance (based on last Saturday issuance date), address and phone numbers by select Provider Location County (optional) and Issuance Month-Year.

There are two user prompts for this query.

1. Provider Location County Name - *Optional*
2. Issuance Month-Year

The fields in this report are

- Provider Location Number
- Business Name
- Provider First Name
- Provider Last Name
- Address
- City
- State
- Zip Code
- Provider Phone Number

Certified Current Auth Count GT 6

Report created for Program Integrity which includes a listing of Certified providers with authorization count greater than 6.

CC Dually Regulated Current Provider Address Listing

A listing of dually regulated current providers (have more than one category code) by select County (optional)

Current LFAM Auth Count GT 12 - 3 reports

Report created for Program Integrity which includes three tabs. 1. LFAM's Current auth count greater than 12. 2. LFAM current auth detail for #1. 3. Auth hrs greater than or equal to 35 OR less than 35 - based on #1.

Current LFAM Auth Count GT 16 - last 30 days

Report created for Program Integrity which includes LFAM's Current auth count greater than 16 and another tab that includes (based on first tab) current auth begin dates within the past 30 days.

Statistics

Monthly

CC Case Numbers for Select County and Issuance Month-Year

This report is a listing of Case Numbers of Served Families for Select County and Issuance Month.

There are two user prompts for this query.

3. Month-Year
4. County Name

CC-Monthly-Issuances

This report contains summary information based on *issuance month-year*. There are three separate tabs within the report:

This particular report is located within the **Statistics** folder and **Monthly** subfolder

Served by CARES

This contains a summary of Total Families; Total Children; Total Issuance amounts and Cost Per Child for each particular month you select.

Served by CARES-Drill

This report is very similar to #1 above except you can also drill down to a particular Category.

Served by CARES Chart

This report shows a chart based on values you selected from the user prompts.

Note! When you select a month that is not complete, you will only get the aggregated issuance weeks for that particular month.

Example: Let's say it's June 24th, 2010 and you select June, 2010 as an issuance month – you will only get the aggregated data for issuance weeks of June 5, 2010; June 12, 2010, June 19, 2010. It's too early for you to get the data for June 26, 2010.

Served by CARES

Based on your month(s) selected earlier, you can see a summary of Total Families; Total Children; Total Issuance amounts and Cost per Child for each particular month. You can filter the selection based on a

Wisconsin DCF Child Care Subsidy WebI Monitoring Reports

specific Issuance Month-Year and County by selecting the dropdown box for each and highlighting the value you want. The default is **(All values)**.

Issuance Month-Year (All values) County (All values)

*** Query Name:CC-Monthly-Issuances-Drill ***
which month(s)? 125. May 2010; 126. June 2010

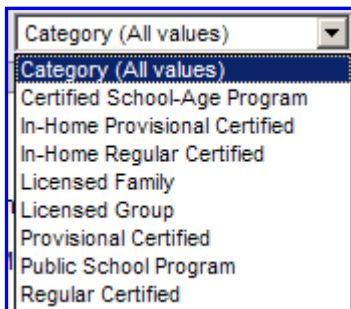

125. May 2010 [↑](#)

01. ADAMS COUNTY [↑](#)

Total Families	Total Children	Total Issuance	Cost Per Child
38	66	\$9,631	\$145.92

Served by CARES-Drill

This report is very similar to Served by CARES except you can also drill down to particular Category values. The default is **(All values)**.

Below is a *sample* based on Dane County for the month of June, 2010 for each category
