Residential Care Center Providers
Group Home Providers

From: Dondieneita Fleary-Simmons, Bureau Director
Out of Home Care

A handwritten signature in black ink, appearing to read "Dondieneita Fleary-Simmons".

RE: Provider Rate Regulation – Program Survey and Financial Report
Complete and return by April 9, 2010

As stated in a previous Child Welfare Licensing Memo Series 2010-01, an advisory committee was formed due to the provider rate regulation that was put into law on June 29, 2009 by Governor Jim Doyle. The provider rate regulation requires the State to establish the per client rate that a group home or residential care center may charge for its services and the per client administrative rate that a child welfare agency may charge for the administrative portion of its treatment foster care services beginning January 1, 2011. Prior to any change or implementation of a State regulated provider rate, an actuarial study will be conducted that will provide a rate analysis for cost of services. The provider rate will be set according to the standard cost for the service(s) provided rather than paying different rates to agencies for the same services.

A program survey and a financial report template have been developed. **All programs are required to complete the appropriate program survey (GH, RCC or CPA) according to your license(s). Everyone is required to complete the financial reporting template.** The program survey is to obtain information on program services and a financial report template for group homes, residential care providers, and private child placing agencies that provide treatment foster care. The program services survey requires information from providers regarding services and basic information on the program like living arrangements, staff and supervision, therapy services, community support options, specialized program components, family engagement, recreation and milieu, medical services and educational services. There are 3 separate program surveys attached, one for group homes, one for residential care centers and one for private child placing agencies that provide treatment foster care.

The attached surveys and financial report need to be completed and returned electronically by email to the identified person (see below) by April 9, 2010.

www.dcf.wisconsin.gov

Program Survey's are to be emailed to the following people:

Residential Care Centers and Group Homes: Jay Pruett at pruett1@eplus.net

Private Child Placing Agencies that provide treatment foster care: Kathleen Penkert at penkert@rconnect.com

All (GH, RCC and CPA) Financial Reporting Templates go to: Jay Pruett at pruett1@eplus.net

If you have any questions regarding the process of the surveys, please call Mary Morse at (608) 266-0415.

Otherwise, **email Jay Pruett** or **Kathy Penkert** your questions regarding completing the survey.
