RE: Service Array Survey Results

The Program Enhancement Plan (PEP) called upon the Division of Children and Family Services (DCFS) to develop and implement a Service Array Survey. The survey asked counties to provide information on the availability of services in five service categories, and the importance of the services to child safety and permanency. In addition, the survey asked about the accessibility of the services, funding, and barriers to use of the services.

Preliminary information from the Child Welfare Service Array Survey conducted in April and May, 2006 is available via the web at: <http://dhfs.wisconsin.gov/cwreview/surveys/results.htm> Results include statewide and regional breakdowns of summary information from the first two questions regarding the availability of services, changes in availability, and the importance of those services to child safety and permanency.

DCFS can produce additional information from the other three questions regarding accessibility, funding and barriers to use. If your county would like additional information regarding the survey, or would like further analysis of specific questions, please contact David Sorenson at 608-261-8896 or email at [sorendm@dhfs.state.wi.us](mailto:sorendm@dhfs.state.wi.us).
