

TANF SERVICES FUNDED IN WISCONSIN
MILWAUKEE W-2 AGENCIES COORDINATION

Program Description:

Wisconsin uses TANF funding for a contract with the Milwaukee Workforce Development Board (WDB) to help provide monitoring and coordination of the Milwaukee W-2 agencies for DWD. This contract also allows for a closer relationship between the WDB and the W-2 agencies who can share information about services and populations for their mutual benefit. The WDB provides monthly oversight including case reviews and technical assistance to DWD on case management practices. The WDB also frequently serves as an organizing body for all the W-2 agencies with common needs regarding information technology or other ad hoc requests.

Client Group Served:

The Department and its staff and the Milwaukee W-2 agencies themselves are served as this contract allows for a local "third party" to assist in the oversight of the delivery of services.

TOTAL TANF FUNDING: \$1,000,000
