

TANF SERVICES FUNDED IN WISCONSIN

PRE-NATAL SERVICES

Program Description:

The Early Identification of Pregnancy (EIDP) program funds pregnancy tests and other services primarily for low income women. The experience of the EIDP program is that 50%-75% of the pregnancy tests result in a negative test. Providers then assist those women desiring family planning services. TANF funding will be utilized for outreach activities to increase public awareness of the program and for case management services that will inform individual women about particular services.

Client Group Served:

Pregnant woman, whose income is 250 percent of the FPL.

Critical Indicators:

The experience of the EIDP program is that 50%-75% of the pregnancy tests result in a negative test. Providers then assist those women desiring family planning services to obtain them.

TOTAL TANF FUNDING: \$100,000
