We are doing a study on the Wisconsin Works (W-2) Program and would like your help.

The W-2 program helps eligible parents with low incomes find jobs or get disability benefits. In most cases, W-2 provides cash assistance to these families.

State records show that you may be getting Food Stamps (also known as Food Share) but that you do not get benefits from the W-2 program. We would like to know why.

Please take a few minutes and fill out the survey included here to tell us about your experience with the W-2 program. We want your opinion even if you never applied for services from the W-2 program.

This survey is confidential. That means that your name will not be used and your responses will not affect your Food Stamp benefits or any other public assistance program.

When you have finished the survey, use the blue postage-paid envelope provided here and drop it in the mail. **Please return the survey by January 27, 2009.**

If you are willing, please provide your name and telephone number at the bottom of the survey. We may call you with some brief follow-up questions. Your answers in the telephone call will also be confidential.

This survey will help us find ways to help families in our state. Your opinions are very important to us.

If you have any questions about this survey, call Tim Rupinski at (608) 266-9387.

Sincerely,

Michael Soref
Research & Statistics Section Chief
