21233-Ticklers

- Ticklers for the Permanency Plan and Permanency Plan review will be fixed to accurately display the actual times and dates due.

21233 Ticklers Continued

- The logic will read: Upon approval of removal from home OHP, create the PPR tickler as removal date + 6 months and the PPH tickler as removal date + 1 year, When PPR is entered, PPR tickler is now due 1 yr. from PPR date and the PPH tickler will be due either 12 months from removal date or 6 months from PPR date, whichever comes first.
- When PPH is entered, reset new PPR tickler to PPH + 6 months, PPH tickler to PPH date + 1 year.
- This design follows State statutes and also keeps the annual hearing from being held more than 12 months from removal (or the previous hearing) which is critical for IV-E reimbursement. This will not apply to existing ticklers until they new review is created.

Template Mapping

- At the top right of each page in eWiSACWIS (from which a template can be opened) is a button labeled TM. When you click on the TM button, you will be taken to the Template Mapping page. On this page you can select the template you wish to view Template Mapping for. Each field on the template will be explained within the Template Mapping document. (i.e. The Father field is prefilled from the Child's Father field on the Additional Tab of the Child's person management record.)

 Page: 1 The Father's Work Telephone number pre-fills from the child's Father's Person Management Page from the Address tab. The child's father is designated on the Parent Info tab of the child's Person Management Page. This field populates with the alternate telephone number entered in the address information. This field is not editable on the template and must be changed via the father's Person Management Page.
