

eWiSACWIS Release 2.9 - Incidents and Enhancements

** Indicates a significantly large change to system functionality.

Top 10 Incidents and Enhancements are highlighted.

| Incident # | Topic Area | Affected Program Area(s) | Reporting Entity | Release Notes |
|----------------|------------|--------------------------|------------------|--|
| 21133** | AFCARS | All | State | <p>The Foster Care AFCARS batch program will no longer skip over detention, voluntary kinship, hospital, youth correctional facility, or adult corrections placements if that placement is part of a qualifying AFCARS episode.</p> <p>If one of the above placements represents all of the placements in an entire episode then the involved child will not be subject to AFCARS reporting.</p> |
| 21835** | AFCARS | All | State | <p>On the Characteristics tab of the Person Management page, the field 'Child has a clinically diagnosed disability' field will be defaulted to blank for all new persons created in the system.</p> |
| 22740** | AFCARS | All | Taylor | <p>In determining the AFCARS error for element #5, time spent in detention placement settings will be considered in the due date of next Perm Plan review.</p> |

| | | | | |
|----------------|------------------------------------|-----------------|-----------|--|
| 22887** | Access | Access | Grant | Enhancement to the Decision tab of the Access Report page. The fields in the 'Worker Recommendation' group box will now always retain the worker information. Prior to this change, if a supervisor changed the type of the report (ex. From CPS to Services Report or vice versa) the worker recommendation information was overwritten with the supervisor's name and decision. With this change we will no longer overwrite the worker recommendation info w/ supervisor information. |
| 22209** | Assessment | Assessment | State | This enhancement will allow workers with appropriate security to enter Assessment Appeal results. Overturning a Substantiated appeal will override the original decision. This enhancement also included changes to the Access Report page, Assessment page, IAPC page, and the IA Secondary page. Please refer to the Access/Assessment/Appeal enhancement web cast for more information. |
| 23120** | Case Visual Metaphor | All Supervisors | Waupaca | Supervisors can now close worker assignments directly from the Worker Expando. |
| 22874** | Document Plans | Ongoing | State | When changes are made to the format or layout of the Permanency Plan template, the Permanency Plan template user entered information will copy over to newly created permanency plan. This means that user's will no longer have to recreate Perm Plans from scratch. |
| 23053** | Eligibility | Eligibility | State | Each initial Determination, Redetermination, Initial Modification, and Redetermination Modification will be associated with its own set of placement records. |
| 22989** | Foster Care/Out of Home Placements | Ongoing | Milwaukee | A Foster Care Rate Setting history displays a correct basic rate specific to the age-group identified. |
| 20047** | Foster Care/Out of Home Placements | Ongoing | State | Removed two fields on the Out of Home Placement page: 'Create IV-E Eligibility Record for Child' and 'Is the child under a court dispositional order and placed outside the home under this order in the last six months.' As the result of this enhancement, data |

| | | | | |
|---------------|---------|-----|-----------|---|
| | | | | elements have been rearranged on the page. Please note, it is recommended to begin data entry with the Placement Begin Date. |
| 6607** | Medical | All | Milwaukee | This enhancement modifies the system so a person's medical and mental health information is centrally located for the worker while including new fields that will allow workers to enter a more comprehensive description of a case participant's health concerns. The worker will no longer use the Create>Case Work process but rather will access and supplement the existing person management record with medical mental health information. Please see the web cast presentation for upcoming changes for additional details. |
