

eWiSACWIS 3.3 Pre-Release Highlights

September 22, 2008

Access Reports

- (20310) Enhancement request for the automatic Address Update functionality when linking a report to a closed case. The enhancement should ensure that a supervisor does not overwrite the worker's Address Copy changes made on the Access Report page. Users will now see the participant's current address next to their names. This will aid workers and supervisors when determining which addresses need to be updated. See new screen shot below for example.

The screenshot shows the eWiSACWIS application window. At the top, there is a blue header bar with the logo 'eWiSACWIS' and navigation icons for Print, Spell Check, and Help. Below the header, there is a 'Case Address' field containing the text '101 Madison Ave., Madison, WI 55555'. Underneath this is a section titled 'Update Participants Residing At Case Address' which contains a table with two columns: 'Name' and 'Current Primary Address'. The table lists several participants with checkboxes in the first column. At the bottom right of the window, there are 'Save' and 'Close' buttons.

	Name	Current Primary Address
<input type="checkbox"/>	Brown, Jamie	
<input type="checkbox"/>	Brown, Kathy	101 Madison Ave., Madison, WI 55555
<input type="checkbox"/>	Gileagle, Lee	
<input type="checkbox"/>	Kellogg, Eric M., Jr.	C/O Kathy Kellog, 100 W. Main, Apt. 200, Madison, WI 55555
<input type="checkbox"/>	Gileagle, Lee	
<input type="checkbox"/>	Kellogg, Erica M.	C/O Kathy Kellog, 100 W. Main, Apt. 200, Madison, WI 55555
<input type="checkbox"/>	Kellogg, Kathy B.	C/O Kathy Kellog, 100 W. Main, Apt. 200, Madison, WI 55555
<input type="checkbox"/>	King, Kitty	

- (24758) Requested at the May 2008 PAW-TAW: Under Section II., #7 on the Request for Emergency Detention (CFS-2071) the CPS Report Date, Report ID, and Screening Decision are currently pre-filled. Pre-fill the summary of allegations section (currently user-entered) with the narrative "Describe alleged maltreatment: current and past; the surrounding circumstances; and the frequency" from the narrative tab of the identified CPS Report. This pre-filled text will pre-fill the first time and then be editable.

AFCARS

- (24230) On the Legal Status page, the 'Date Order Entered' field will be removed from the page (both newly created and existing pages). The 'Hearing Date/Date Legal Status Changed' field will be renamed to 'Hearing/Legal Status Date.' This field will be highlighted bold red to indicate that it is an AFCARS field.

eWiSACWIS 3.3 Pre-Release Highlights

September 22, 2008

Assignment

- (24778) Supervisors will now be able to create Participant Assignments from the Worker expando on their desktop and also from case search. This adds the ability to create case participant assignments without having an assignment first.

Case/Provider Notes

- (20035) This enhancement will allow the same 'Worker Making Contact' or the 'Worker Creating Note' to edit a pending, not Finalized, Case or Provider Note from Search, regardless of whether or not the worker has an open assignment to the Case or Provider.

Case Maintenance

- (6145) Added an enhancement to associate collaterals on the Maintain Case page with case participants. Each collateral listed may be associated with one or more case participants.
- (24390) if a person is in multiple cases, only allow the person to be TPR'd in one case... only allow the TPR of any PID to occur once.

Desktop

- (24945) The value selected in the Type Detail field on the case note will now display next to the category and type on the desktop and on all searches where case notes can be displayed. This will allow users to see the Type Detail selected without having to click on each case note to view it. Also, the following Type Detail values have been added: Email, Staffing, Violation, Informal Dispositional Agreement, and Court Intake Inquiry.

Eligibility

- (22297) eWiSACWIS will interface with MMIS to provide access for workers to submit requests to verify Medicaid eligibility related information and to request a replacement card.

Out of Home Placement

- (24566) Need to create a new Automated Message that can be maintainable (via distribution) to alert users when an out-of-home placement has been created in their county.

Person Management

- (24422) The Kinship tab on Person Management has been removed. The information from the Child Information group box has been moved to the Additional tab and the information from the Child's Parental Information group box has been moved to the Parent Info tab. The Child's School Information group box has been added to the new Education tab on Person Management. The Education tab replaces the Education Record.
- (24665) A Birth to Three Referral value has been added to the Type of Service dropdown on the Health Concern page (from the Medical/Mental Health tab on Person Management). This value should be used when CPS is required to refer children 3 and under to the Birth to Three program if there is substantiated maltreatment.

Planning

- (24885) This enhancement transferred the Family Interaction Plan template into a new page in the application where all data for the Family Interaction Plan is entered on the new page and this data is pre-filled into a template. There is no user entered text on the form. This Plan is child specific.
