------	--	--

Licensing Home Providers

2756	Licensing when the past license is expired	Now, when creating a license for a provider whose license has expired, the user is allowed to choose from all of the service types that the Provider can provide instead of restricting to the services that the Provider provided before license expiration.
------	--	---

Licensing Home Providers

2856	Revoke a provider license	When a provider's license is revoked, the Effective To date is now changing to be equal to the same date as when the license was revoked. A new license can now be created without getting any overlapping date errors.
------	---------------------------	---

Also, overlapping license regardless of the License Type cannot be created. The following message is displayed:
Overlapping License Dates are Not Allowed.

And if a Supervisor revokes and approves the additional licensing action, the name of their supervisor is not being displayed on the Approval pop-up page since the supervisor creating the additional licensing action has final approval.

CPS Reports

2849	Deleting participant NOT recognized without saving	If Participant that has not been searched on an Intake is deleted, the worker will now be able to continue working on the Intake without clicking the Save button.
------	--	--
