

## **eWiSACWIS Release 2.8 Summary June 25<sup>th</sup> 2007**

Within this document you will find the release summary of eWiSACWIS (Release 2.8) system changes and enhancements. This summary includes changes that may impact workflow, data entry, procedures and reporting. Some of the changes may have been the result of a policy change while others may have been the result of PEP decisions. Many of the changes are the result of issues reported to the helpdesk by system users. "How Do I" and "Quick Reference" guides should continue to be accessed for more specific usage of the application and/or new functionality.

**The eWiSACWIS Knowledge Web will continue to host the following information:**

- **Online Training**
- **Pre-Release Summaries**
- **Detailed Post-Release notes**
- **Program Activity Workshop/Technical Activity Workshop documentation**
- **Operations Memos**
- **Quick Reference Guides**
- **"How Do I" Guides**

## eWiSACWIS Release 2.8 - Incidents and Enhancements

\*\*Indicates significant change to system functionality

Incident #	Topic Area	Affected Program Area(s)	Reporting Entity	Description
21707	eWReports	eWReports	State	A new report has been developed for eWReports to determine eWReports usage. Users who have read-only access to the PSAC database will be able to view this data.
22365	AFCARS	All	State	In the Exception Messages group box on the AFCARS Exceptions page, the correction message for element 18 now displays the accurate directions for correcting this error.
22710	AFCARS	All	Winnebago	One day placements that are flagged for removal and discharge on the same day will no longer be subject to AFCARS error generation.
22676	Access	Access	Dane	When searching a participant on the Access Report page, selecting the 'Incl. AKA' checkbox will no longer result in an error.
22385	Access	Access	State	Modifies the CFS-2091 (Child's Death, Serious Injury or Egregious Incident Notification) template. Added two new user-entered fields: Case Name (Last, First, MI) and the eWiSACWIS Case Number.
21229	Activity Notes	Assessment	Manitowoc	When creating an Assessment Contact at least one participant must be selected in the Assessment Contact Information section.
22421	Activity Notes	All	Sauk	When a case note type of Telephone Calls is created, user will no longer be required to complete the Face-to-Face Contact Type and Face-to-Face Contact Result drop downs fields.

691	Activity Notes	Providers	State	Added "Amendment" to the Case/Provider Notes type dropdown field. This field value is filtered and will only display when the Fiscal Category is selected.
4248**	Activity Notes	Supervisor	State	Allows supervisors to create case notes on their worker's cases from the worker expando.
20740	Activity Notes	Assessment	State	Multiple empty rows will no longer appear in the assessment contact information group box.
22341	Activity Notes	Assessment	State	Assessment Contact rows now will no longer be deleted after the note is finalized.
22470	Activity Notes	All	State	When a case note of any type is created with participants selected/added as part of the contact information, the system will now leave all participants available for selection (in addition to those selected) while the note is pending.
22547	Activity Notes	Assessment	State	When a user reselects the Assessment Contact, the Assessment Contact information will remain on the page.
22450 22459	Approvals	Ongoing	State	After sending a CPE or FACP approval to a supervisor, any change to the CPE or FACP will recall the approval to the user if the user indicates they wish for it to be returned.
22317	Assessment	Ongoing	Outagamie	Removing a person using the Add/Edit button on the FACP will now also remove the associated services for the participant from the template. Prior to this change, the information was not being deleted.
22196	Assessment	Assessment	State	The Safety Decision under the Results Tab of Assessment now displays the safety decision derived from the Safety Assessment and Plan tied to the Assessment.
22209**	Assessment	Assessment	State	Design Only of changes to eWiSACWIS required by revisions to the CPS Access, Investigation/Initial Assessment Standards. Actual functionality will be present in 2.9.

22294**	Assessment	Assessment	State	Design Only of appeals functionality being added to assessment processing. Actual functionality will be present in 2.9.
22769	Automated Messaging	email	Milwaukee	This incident addresses the non generation of certain emails by the system for the newly added BMCW Site/Office of OHC/Adoptions. All pertinent emails will now be generated to the appropriate workers in this site/office with this fix.
22410**	CPS Reports	Access	Milwaukee	The 'Explain' text field (located under the Supervisor Decision group box on the Decision Tab of the Access Report page) now becomes a required field when the supervisor has selected a screening decision different than the worker's screening recommendation. This applies to both CPS and Services Reports.
22498	Case Visual Metaphor	Ongoing	State	A pending Case Progress Evaluation will be displayed first when expanding the Ongoing Services icon under the Case Icon from the desktop.
22646	Case Visual Metaphor	Ongoing	State	The historical Family Assessment and Case Plans now display correctly under the Ongoing Services icon on the desktop.
22718**	Close Case	All	Milwaukee	The SM05 Case Closure batch has been modified to allow reopened cases (that were previously allowed to close without Assessments for PS Reports) to close again without the Assessment needing to be completed.
22218	Close Case		State	Program Assignment information will now copy-over from a pre-adoptive child ID to the Adoptive Home ID. The old person program assignment records will remain in the pre-adoptive case.
22620	Close Case	All	State	The case closure batch now provides the correct details of episodes "missing discharge reason".
22603	Document Plans	Ongoing	Dane	A Case Progress Evaluation will no longer ask for a target end date when a goal status is updated to

				Achieved.
22632	Document Plans	Ongoing	Milwaukee	The TPR Copy Batch will no longer copy CPEs and FACPs to Pre-Adoptive Cases.
22642	Document Plans	Ongoing	Milwaukee	Fixes existing CPEs and FACPs that have been copied over to the Pre-Adoptive case with missing Approvals.
22232	Document Plans	Ongoing	Racine	Historic out of home safety plans will no longer be reset to Ongoing when an Ongoing Out of Home Safety Plan is terminated.
22192**	Document Plans	Ongoing	State	<p>With passage of the 2006 federal deficit reduction act, changes were made to title IV-E policy related to claiming for foster care candidates. These changes include the following:</p> <p>Requiring re-determinations of candidacy status every six months rather than every twelve months (as documented in the case plan, court order or eligibility determination documentation).</p> <p>Requiring that the child be at “imminent risk” of placement, rather than “serious risk” of placement.</p> <p>Specific changes to eWiSACWIS include:</p> <p>A new Participant tab on the Safety Assessment and Plan and a new Analysis question on the Plan Analysis tab. These changes have also been incorporated into the associated template.</p>
22693	Document Plans		State	When creating a subsequent Adoption Case Plan the goal information can now be edited and saved.
22753	Document Plans	Ongoing	State	The Perm Plan template will now pre-fill the Date of Removal even if the date of removal (of the current episode) is in a case different than the one the Perm Plan is being created for.

22733	Eligibility	Eligibility	Milwaukee	All edit checks (for required fields) will be skipped when a user voids the IV-E determination record.
22025**	Eligibility	Eligibility	State	<p>This incident adds two new functional components to the Title IV-E Eligibility module.</p> <ol style="list-style-type: none"> <li>1. Eligibility workers will now be able to make modifications to previously completed IV-E determinations without affecting subsequent claiming periods, nor having to rebuild an entire eligibility episode history. This is accessed via the new Maintain &gt; Eligibility &gt; Eligibility History menu item.</li> <li>2. Eligibility workers will now be able to complete multiple redeterminations and refer them as a single package for review and sign-off, instead of referring and signing-off on each one individually.</li> </ol> <p>Additionally, Question #6 was removed from the Initial Determination tab. As such, Questions 7a and 7b were moved under the expando with questions 7c and 7d.</p>
22045	Foster Care/Out of Home Placements	Ongoing	Milwaukee	Changing the county will no longer blank out the 'Date Removed from his/her home' field, which had been causing a Fatal Application Error upon save.
22355	Foster Care/Out of Home Placements	Adoption	State	The system will now correctly prevent users from completing the approval of the Adoption Assistance Agreement if the Concluded checkbox gets unchecked.
22413	Foster Care/Out of Home Placements	eWReports	State	The SM10a16 Adoption Agreement Amendment Expiration Reminder report has been modified.
22641	Foster Care/Out of Home Placements	eWReports	State	The SM10a17 Adoption Amendment Expiration Dates Report has been modified.
22434	Gather/Monitor/Request Reimbursement	Financial	State	Fixes an issue with the Payment Reimbursement batch to properly handle online triggers related to provider eligibility cost percentages.

22303	ICPC	ICPC	Adams	Selecting the 'Copy from Bookmark' button on the Quarterly Supervision Report template will no longer display an error.
22362	Issue/Reconcile Checks	Financial	State	The Check Number Recording page will now allow a user to save the changes if they back out of a check number entry.
22466	Issue/Reconcile Checks	Financial	State	The edits on the Manual Checks page are properly ensuring that a payment has been selected upon save.
22537	Legal Consult	Ongoing	Barron	A copied Court Report will now display the name of the worker who created it and not the name of the worker who created the previous Court Report.
7537	Legal Consult	Adoption	State	The signature section on the Recommendation for Adoption template no longer prefills names. The header and template text were also changed to conform to form standards.
7941	Legal Consult	Ongoing	State	The father's address information on the Delinquency Assessment and Court Report templates now prefill correctly from the father's person management address; not from the case address.
22035	Maintain Case	All	State	Design only of enhancement to update current case type values, and automate the selection of the case types. Actual functionality will be present in 2.9.
22684	Maintain Case	eWReports	State	The SM04a02 Case List Report now accurately reports the number of children in Out of Home Care in the detail and summary outputs.

6607**	Medical	All	Milwaukee	Design only. Currently, medical and mental health information is documented by workers in eWiSACWIS on the Person Management, Medical Mental Health Profile, and Adoption Referral pages. The State has modified eWiSACWIS to create one central location where workers can enter medical and mental health information. The current Medical/Mental Health page will be incorporated into one tab on the Person Management window. This change also allows for some reorganizing of the other Person Management pages/tabs. Existing Medical/ Mental Health records will be converted into the new tabs on Person Management. Actual functionality will be present in 2.9.
22489	NCANDS	eWReports	State	Fields 11 (Initial Face-to-Face Contact) and Field 14 (Children in Home Not A/N) in the IN0301 Statewide CA/N report have been fixed to retrieve data accurately.
22807	NCANDS	eWReports	State	Field 13 – (Safety Services) on the CAN Report will now accurately report for historical safety analysis and plans.
22698	Person Management	Adoption	Milwaukee	Modifies the Child Turning 18 batch to better and more correctly process Adoption Funding determinations for children over 18 who had their Federal funding status extended because of documented disabilities. The batch will now end the Federal funding as of the day following the child's placement end date (once they are beyond age 18).
20915	Private Provider	Provider	State	This enhancement fixes the duplicity of and links between CPAs and RCC and GH records as this function cannot be corrected online.
22509	Process Payments Requests	Financial	Milwaukee	Fixes an issue with the calc ongoing batch related to retroactive rate setting payments in situations where an overpayment was previously generated for the placement period payment.

22703	Process Payments Requests	Financial	State	Fixes an issue with the prepayment batch related to retroactive rate setting payments in situations where an overpayment was previously generated for the placement period payment. This is related to incident 22509 for calc ongoing.
22457	System Management	eWReports	State	The report layout for r-cm22a01 was modified by expanding the field lengths used to display site, job class, and name of worker for the User Access Audit Tracking report. The report was truncating fields and failing prior to the change.
10530	Ticklers	All	State	Fixes an issue where ticklers were displaying incorrectly when a supervisor had ticklers for their own work and escalated ticklers from a worker. All ticklers were being displayed under the supervisor's 'My Ticklers' expando as escalated.
21649**	Trust Accounts	Financial	State	Major redesign of Trust Account functionality including: 1. One Trust Account per Child per County. 2. No Assignment necessary to work on Trust Account. 3. Major views include all accounts in county or accounts specific to case. 4. Updates to Non-eWiSACWIS Benefits pages and groupings of benefits. 5. Optional Page for Analysis of ledger Transactions. 6. Additional exports of Trust Account search results.
22474	Worker Assignment	All	Milwaukee	This enhancement includes modifications made to the retrieval and display of assignment related information on the Worker Assignment Page. The responsibility values were displaying incorrectly. The category, type, role and responsibility values selected are now used in conjunction to uniquely identify and display the assignment responsibility field.
