Dear Senate Chief Clerk Anderson and Assembly Chief Clerk Blazel:

In compliance with 2009 Wisconsin Act 78, the Child Welfare Public Disclosure Act, please accept the Department of Children and Families' (DCF's) 2026 first quarter report on alleged sexual abuse of children residing in out-of-home care. The data presented below addresses such reports for the period January 1 to March 31, 2026, and fulfills the DCF's reporting requirements under Section 48.981(9)(a), Wis. Stats.

We appreciate the Legislature's interest in Wisconsin's child welfare system and their commitment to supporting DCF, county and tribal child welfare agencies, and the hundreds of non-profit organizations who work to protect Wisconsin children every day. Like you, we are saddened by all cases of child maltreatment and are committed to strengthening families. Wisconsin is fortunate to have dedicated and passionate child welfare professionals, and we want to recognize and express our appreciation for their commitment and compassion as they engage in these very challenging situations with children and families on a daily basis.

We encourage legislators and stakeholders to reinforce awareness that prevention of child maltreatment is a community-wide responsibility involving all individuals and organizations in the community, and to continue to support efforts at the local and state levels to develop a more robust and consistent array of child maltreatment prevention services. Through collaborative and data-driven analyses and discussions, we all can support efforts to strengthen the families in our state to provide safe, stable, and nurturing homes for their children and help our families and children succeed and thrive.

The following is a summary of the findings in the [report](#):

Number of Reported Incidents: 25

Wisconsin child protective services agencies screened in and investigated 25 reported incidents of alleged sexual abuse to 25 children residing in out-of-home care.

Dates of the Incidents:

Of the 25 reported incidents, one occurred in 2023, and the other 24 are estimated to have occurred between December 2025 and March 2026.

Page 2

Maltreatment Determinations:

Of the 25 reported incidents, maltreatment determinations were made for 12 (48%) of the reported incidents, while 13 (52%) maltreatment determinations are pending because the investigations are not complete.

Of the 12 reported incidents where the maltreatment determination was made, eight (67%) were unsubstantiated (i.e., preponderance of the evidence indicating that sexual abuse occurred was not found), three (25%) were substantiated, and one (8%) had a determination of not able to locate source (i.e. used when critical sources of information were inaccessible and therefore it could not be determined that there was a preponderance of the evidence that sexual abuse occurred).

Nature of Maltreater Relationship:

Of the three substantiated incidents, the relationship of the maltreater to the child was a non-caregiver in all three incidents. All three of the substantiated incidents included allegations of sex trafficking.

Types of Placement Settings:

The three substantiated incidents occurred while the child was placed in a group home.

Location of Substantiated Incidents:

The three substantiated incidents occurred in Milwaukee County.

Ages or Age Group of Children:

The alleged sexual abuse was reported and investigated for children 2-17 years of age. The three substantiated incidents of sexual abuse involved three children, ages 12, 13, and 16.

In closing, thank you for your continued partnership in ensuring all Wisconsin children are safe and loved members of thriving families and communities. Feel free to contact the department with questions or clarification requests.

Sincerely,

Secretary Pertl
