

Performance Monitoring Plan (PMP)

Treatment Foster Care

Division of Milwaukee Child Welfare (DMCW)

Performance Monitoring

The Contractor will utilize a shared document to report the number of licensed homes and beds available, and beds unavailable, monthly. The same document will be used by the Contractor to record the measures below.

Goal 1: Children placed in TFC homes will have treatment needs that require services beyond the scope of general foster care.

MEASURE	REPORTING FREQUENCY	REPORT METHOD
No more than 20% of placements will be children with a CANS score less than 3	Quarterly	Manual

Goal 2: Children placed in TFC homes will have placement stability

MEASURE	REPORTING FREQUENCY	REPORT METHOD
No more than 25% of placement changes will be a result of a 15-day notice or emergency removals	Quarterly	Manual

Goal 3: TFC agencies will license families that are able to meet the needs of children that require out-of-home placements

MEASURE	REPORTING FREQUENCY	REPORT METHOD
More than 50% of available beds will be utilized	Quarterly	Manual
