(1) RESPONSIBILITIES AND QUALIFICATIONS OF STAFF.

Exceptions will not be granted for staff who do not meet entry-level training qualifications.

(a) Competency. A child care worker, including the center administrator, center director, child care teachers, assistant teachers, and volunteers counted in the staff to child ratio shall be physically, mentally and emotionally able to provide responsible care for all children including children with disabilities.

(b) Shaken baby syndrome prevention training. Except for a volunteer who is not counted in staff-to-child ratios, each child care worker including the administrator, center director, teachers, assistant teachers, and substitutes who provide care and supervision to children under 5 years of age shall receive department-approved training in shaken baby syndrome and impacted babies and appropriate ways to manage crying, fussing or distraught children. The training shall be completed by one of the following methods:

A Registry Certificate that indicates Shaken Baby Syndrome prevention training is acceptable as evidence that a person has completed the department-approved training. If a certificate of completion is used to document completion of the required shaken baby syndrome prevention training the certificate must contain all of the following items: Printed (typed) name of student; Printed (typed) name of training agency; Printed (typed) date the training was taken; Printed (typed) name of approved trainer; Printed (typed) name of training; and Signature of the approved trainer.

1. Complete the department-approved, in-person training on shaken baby syndrome prevention and impacted babies before the date on which the child care worker begins to work with children under age 5 years.
2. View a department-approved video or complete a department-approved, web-based course on shaken baby syndrome prevention before the date on which the child care worker begins to work with children under age 5 years and complete a department-approved, in-person training within 6 months of beginning to work with children under age 5.

Note: Department-approved training in shaken baby syndrome prevention is included in the department-approved non-credit courses called Introduction to the Child Care Profession and Fundamentals of Infant and Toddler, if the course was taken after 7/1/05. Information on department-approved training in shaken baby syndrome is available from the Child Care Information Center at 800−362−7353.

(c) Cardiopulmonary resuscitation training. All employees in regular contact with children shall obtain and maintain a current certificate of completion for infant and child cardiopulmonary resuscitation and automated external defibrillator use from an agency approved by the department within 6 months after beginning to work with children. Volunteers included in determining staff-to-child ratios shall obtain a certificate of completion in infant and child cardiopulmonary resuscitation after volunteering for 240 hours. The time spent obtaining or renewing cardiopulmonary resuscitation training may be counted towards the required continuing education hours.

Substitutes and volunteers counted in staff-to-child ratios are not required to have CPR training until they have worked in a center for 240 hours or 6 months whichever is later.

All staff (employees) in regular contact with children in care are required to have CPR training. For example, if a cook, maintenance person or administrative assistant has regular contact with children, then that cook, maintenance person, driver or administrative assistant would need CPR training. Regular contact means that the person comes into contact with children on a regular basis, even if that contact is in a classroom supervised by teaching staff. Student teachers and volunteers who are not counted in the staff-to-child ratios are not considered staff and do not need to have CPR training.

The Department of Health Services, Bureau of Emergency Medical Services (BEMS) approves agencies to offer the CPR with Automated External Defibrillator (AED) training as required by the statutes. A list of currently approved agencies is available on the BEMS website http://dhs.wisconsin.gov/ems/License_certification/CPR.htm. The training must result in a certificate of completion. If the certificate of completion does not have a date specifying the length of time for which it is valid, the CPR training must be renewed every year.

If the center does not serve infants, the CPR training may be child/adult CPR.
(d) **Administrator.**

1. The licensee may act as administrator of a group child care center. If the licensee does not act as administrator, the licensee shall designate a person or persons to be the administrator or administrators of the center. The administrator shall be responsible for the center’s management, including personnel, finance, physical plant and the day to day operation of the center.

   One person could fill more than one position (such as administrator and center director) provided that person meets the qualifications for each position and all applicable rules.

   If a center wishes to have two persons filling the position of administrator, each with training in only one component (business or Early Childhood), an exception may be considered based on their plan as to how they will make decisions. Job descriptions should reflect this situation.

   The Child Care Information Center has resources available to assist in writing job descriptions [https://dcf.wisconsin.gov/ccic](https://dcf.wisconsin.gov/ccic) or toll free at (800) 362-7252.

2. An administrator shall:
   a. Be at least 21 years of age.
   b. Have completed high school or its equivalent as determined by the Wisconsin department of public instruction. A General Education Diploma (GED) or High School Equivalency Diploma (HSED) is equivalent to a high school diploma.

3. Before a person assumes the position of administrator, the person shall have both of the following:
   a. One year of experience as a manager or satisfactory completion of one credit or non-credit department-approved course in business or program administration.

      A course from the Wisconsin Child Care Administrator Credential will meet this requirement. After January 1, 2009, there is no non-credit, department-approved course available that will meet this requirement. See commentary under DCF 251.05(1)(h).

   b. One year of experience as a center director or child care teacher in a licensed child care center or kindergarten or satisfactory completion of one non-credit department-approved course or one course for credit in early childhood education or its equivalent.

      See commentary under DCF 251.05(1)(h) and Appendix J; Entry Level Courses – Early Childhood Professionals.

4. If the board of a parent cooperative is responsible for management of a center, the requirements under subds. 2., and 3., do not apply.

5. Within one year of assuming the position, each administrator shall complete at least 10 hours of training in supervision or personnel management, if the administrator has not previously received that training. The training may be counted as part of the annual continuing education requirement.

   The 10 hours may include the department-approved 10-hour Administrator’s course, Course One in the WI Child Care Administrator Credential (Administration/Supervision in Early Childhood Programs: Role and Responsibilities), or a combination of training opportunities such as conferences, workshops or correspondence courses.

(e) **Center director.**

1. The licensee may act as the center director. If the licensee does not act as center director, the licensee shall designate a person or persons to be the center director for each center location.

   If a center wishes to have two persons filling the position of director; they both need to be fully qualified. A plan as to how the job duties assigned and how the required hours for completing assigned duties will be divided should be identified in the job description.

2. The center director shall be responsible for the supervision of the planning and implementation of the center’s program for children, the supervision of staff at the center, staff meetings and orientation and continuing education for the staff.

3. A center director shall be employed on one of the following schedules:

   See DCF 251.03(22g) – DEFINITION OF A “PART-DAY” PROGRAM. All part-day programs must have a person who meets the qualifications and fulfills the duties of a center director. The center director in this case is not required to be on site for a set number of hours as indicated under a. and b. below.

   A part-day program remains part day even when operating full time during vacations.

   a. At least 10 hours a week for the exclusive purpose of carrying out center director responsibilities in a single full-day center location licensed for 50 or fewer children.
   b. At least 20 hours a week for the exclusive purpose of carrying out center director responsibilities in a single full-day center location licensed for 51 or more children.
251.05(1)(e)4.

4. A center director for a program licensed to serve 50 or fewer children shall:
   a. Be at least 21 years of age.
   b. Have completed high school or its equivalent as determined by the Wisconsin department of public instruction.
   c. Have at least 80 full days or 120 half days of experience as a teacher or assistant teacher in a licensed child care center or other approved setting.
   d. Prior to beginning to work as a center director have completed at least one of the following training requirements:

A General Education Diploma (GED) or High School Equivalency Diploma (HSED) is equivalent to a high school diploma.

A combination of non-credit, department-approved and credit-based courses may be used to meet the entry-level training requirements. See Appendix J; Entry Level – Early Childhood Professionals and Entry Level – School-Age Professionals.

The entry-level courses that meet the requirements for family child care may be counted when evaluating the entry-level education requirements for a director of a center serving 50 or fewer children.

i. Two non-credit department-approved courses in early childhood education and within one year of assuming the position, one course in the Wisconsin Child Care Administrator Credential or its equivalent.

Introduction to the Child Care Profession and Skills and Strategies for the Child Care Teacher are the names of the two non-credit department-approved courses that may be used to meet this requirement.

Correspondence courses and on-line courses are available from technical colleges and private agencies approved to offer non-credit courses. See Appendix J Resources List, Agencies Approved to Offer Non-Credit, Department-Approved Courses.

Any of the first 5 courses in the Wisconsin Child Care Administrator Credential may be used to meet the requirement for one additional course. Child Care Administrator or Director Credentials that are credit based and issued by another state are considered equivalent to the Wisconsin credential. When one course is required, a course in program administration taken as part of an associate or bachelor degree in early childhood education may be taken in place of a course in the Wisconsin Child Care Administrator Credential. No exception is necessary. See Appendix J Resources List, Wisconsin Child Care Administrator Credential.

ii. Two courses for credit in early childhood education and within one year of assuming the position, one course in the Wisconsin Child Care Administrator Credential or its equivalent.

See Appendix J Resources List; Entry Level – Early Childhood Professionals and Entry Level School-Age Professionals.

iii. Forty eight credits from an institution of higher education with at least 3 credits in early childhood education and within one year of assuming the position, one course in the Wisconsin Child Care Administrator Credential or its equivalent.

iv. A certificate from The Registry indicating the person is on Registry Level 12 or above.

See DCF 251.04(5)(a)5. STAFF FILE–REGISTRY CERTIFICATE, EDUCATIONAL QUALIFICATIONS. The Registry certificate must indicate that the person is qualified for the position held. See Appendix J Resources List, The Registry Career Levels.

v. A one-year child care diploma from an institution of higher education.

vi. An associate degree in early childhood education or child care from an institution of higher education.

vii. Child development associate (CDA) credential issued by the council for early childhood professional recognition and within one year of assuming the position, one course in the Wisconsin Child Care Administrator Credential or its equivalent.

viii. A bachelor degree from an institution of higher education in early childhood education or child development or a license from the Wisconsin department of public instruction to act as a kindergarten, pre-kindergarten or early childhood (regular or special education) teacher.

A person who holds a Department of Public Instruction (DPI) teaching license from Wisconsin or another state for Kindergarten and up or has a 4-year degree in education meets the early childhood education requirements as center director in a center licensed for 50 or fewer children.
Note: Information on how to obtain or renew a Wisconsin department of public instruction teacher license is available on the DPI website, http://dpi.wi.gov/tepdl.

e. Complete at least 10 hours of training in supervision or personnel management within one year of assuming the position of center director, if the director has not previously received that training. The training may be counted as part of the annual continuing education requirement.

See Appendix J Resources List, Agencies Approved to Offer Non-Credit, Department-Approved Courses. See Appendix J Resources List, Credit to Hours Conversion – Technical Colleges and Universities.

This 10 hours may include the department-approved 10-hour Administrator's course, Course One in the WI Child Care Administrator Credential (Administration/Supervision in Early Childhood Programs: Role and Responsibilities), or through a combination of training opportunities such as conferences, workshops or correspondence courses.

5. A center director for a program licensed to serve 51 or more children shall:
   
a. Be at least 21 years of age.
   
b. Have completed high school or its equivalent as determined by the Wisconsin department of public instruction.
   
c. Have at least 2 years of experience as a child care teacher or center director in a licensed child care center or other approved setting.

Experience in a family child care center may be counted toward the experience requirement for the center director of a center licensed to care for 51 or more children.

d. Prior to beginning to work as a center director have completed one of the following training requirements:

A combination of non-credit, department-approved and credit-based courses may be used to meet the entry-level training requirements.

i. Four non-credit department-approved courses in early childhood education or its equivalent and within 3 years of assuming the position the Wisconsin Child Care Administrator Credential. Up to two courses in the Wisconsin Child Care Administrator Credential may be used to meet the early childhood education requirement, if taken prior to beginning to work as a center director.

Introduction to the Child Care Profession and Skills and Strategies for the Child Care Teacher are the non-credit, department-approved courses that will meet the requirement for 2 of the 4 courses in this rule. Prior to January 1, 2009, there were 2 additional non-credit, department-approved courses called Center Administrator and Center Director that could be taken to meet the requirement for four non-credit, department-approved courses. The Center Director and Center Administrator courses, taken prior to January 1, 2009, may continue to be used to meet the requirement for four courses. However, after January 1, 2009, the non-credit Center Director and Center Administrator courses are no longer approved. In place of these courses, any two courses in the Child Care Administrator Credential may be substituted.

Transcripts alone do not indicate a person has obtained an administrator credential. The person must have an indication on the Registry Certificate or a copy of the credential certificate to indicate that the credential has been obtained.

See Appendix J Resources List, Agencies Approved to Offer Non-Credit, Department-Approved Courses and see Appendix J Resources List, Wisconsin Child Care Administrator Credential.

ii. Four courses for credit in early childhood education from an institution of higher education and within 3 years of assuming the position, the Wisconsin Child Care Administrator Credential. Up to two courses in the Wisconsin Child Care Administrator Credential may be used to meet the early childhood education requirement, if taken prior to beginning to work as a center director.

See Appendix J Resources List; Entry Level – Early Childhood Professionals and Entry Level – School-Age Professionals.

iii. An associate degree in early childhood education or child care from an institution of higher education.

iv. A bachelor degree in early childhood education from an institution of higher education or a license from Wisconsin department of public instruction to act as a kindergarten, pre-kindergarten or early childhood (regular or special education) teacher.

A teaching license from another state which indicates the person is qualified as a teacher for children from birth through age 8 is acceptable. No exception is necessary.

v. A certificate from The Registry indicating the person is on Registry Level 14 or above.

See DCF 251.04 (5)(a)5. STAFF FILE – REGISTRY CERTIFICATE, EDUCATIONAL QUALIFICATIONS. The Registry certificate must indicate that the person is qualified for the position. See Appendix J Resources List, The Registry Career Levels.

Note: Information on how to obtain or renew a Wisconsin department of public instruction teacher license is available on the DPI website, http://dpi.wi.gov/tepdl.
(f) Child care teacher.

1. A child care teacher shall plan, implement and supervise the daily activities for a group of children.

2. A person who is a child care teacher shall be at least 18 years of age and have completed high school or its equivalent as determined by the Wisconsin department of public instruction.

A General Education Diploma (GED) or High School Equivalency Diploma (HSED) is equivalent to a high school diploma.

3. A person who is a child care teacher shall document at least 80 full days or 120 half days of experience as an assistant child care teacher in a licensed child care center or other approved early childhood setting.

Individuals need the equivalent of 360 hours experience in an approved setting. Experience as a licensed family child care provider may be used to meet this requirement. “Full-time work experience” means working directly with children for 4 or more hours per day; “half-time work experience” means providing child care for at least 2 hours per day, but less than 4 hours. Experience in unregulated care settings is not acceptable.

4. Prior to assuming the position, a person hired to be a child care teacher shall be qualified by having completed one of the following:

A combination of non-credit, department-approved and credit-based courses may be used to meet the entry-level training requirements. See Appendix J Resources List; Entry Level – Early Childhood Professionals and Entry-Level – School-Age Professionals.

a. Two non-credit department-approved courses in early childhood education.

Note: Introduction to the Child Care Profession and Skills and Strategies for the Child Care Teacher are the names of the non-credit courses approved by the Department to meet the entry level training requirements for a child care teacher.

Correspondence courses and on-line courses are available from technical colleges and private agencies approved to offer non-credit courses. See Appendix J Resources List, Agencies Approved to Offer Non-Credit, Department-Approved Courses.

b. Two courses for credit in early childhood education or its equivalent from an institution of higher education.

See Appendix J Resources List; Entry Level Courses – Early Childhood Center Staff and Entry-Level Courses – School-Age Center Staff.

See DCF 251.03(8m) DEFINITION – COURSE FOR CREDIT.

c. Certificate from The Registry indicating that the person is qualified as a child care teacher.

d. Forty-eight credits from an institution of higher education with at least 3 credits in early childhood education or its equivalent.

See Appendix J Resources List; Entry Level – Early Childhood Professionals and Entry-Level – School-Age Professionals.

e. A one-year child care diploma from an institution of higher education.

f. An associate degree in early childhood education or child care from an institution of higher education.

g. Child development associate credential issued by the council for early childhood professional recognition.

h. Certificate from American Montessori Society, Association Montessori International, or Montessori Accreditation Council for Teacher Education.

Other Montessori teacher training organizations approved by the Montessori Accreditation Council (MACTE) include: American Montessori Society (AMS), National Center for Montessori Education, AMI, Montessori St. Nicholas, London Montessori Center, Montessori Institute of America, International Association Montessorians, Pan American Montessori Society. If program staff received training from a training organization approved by MACTE, this training would be acceptable.

A certificate of completion from the International Montessori Society for a correspondence course in Primary Level (2-6) will meet the education requirements for a child care teacher. The individual with such a certificate will still need to meet the experience component.
i. A bachelor degree in education from an institution of higher education or a license from the Wisconsin department of public instruction to act as a teacher.

**Note:** Information on how to obtain or renew a Wisconsin department of public instruction teacher license is available on the DPI website, http://dpi.wi.gov/tepdl.

j. Certificate from the bureau of apprenticeship standards as a child development specialist.

(g) Assistant child care teacher.

1. An assistant child care teacher shall work under the supervision of a child care teacher with a group of children.

2. A person hired to be assistant child care teacher shall be qualified in one of the following ways:

a. The person shall be at least 18 years old and have satisfactorily completed one non-credit department-approved course in early childhood education or completes that training within 6 months after assuming the position.

**Note:** Introduction to the Child Care Profession is the name of the non-credit course approved by the Department to meet the entry level training requirements for a child care assistant teacher. Information on agencies offering the department-approved course is available on the department’s website at http://dcf.wisconsin.gov.

b. The person shall be at least 18 years old and have satisfactorily completed one course for credit in early childhood education or its equivalent at an institution of higher education, or is enrolled in that course within 6 months after assuming the position.

**See Appendix J Resources List; Entry Level – Early Childhood Professionals and Entry-Level – School-Age Professionals.**

High school courses that meet the entry-level training requirements will result in a certificate issued by the Department of Public Instruction (DPI) – a grade report or high school transcript is not sufficient. A certificate will be issued when both grade and attendance meet the specifications designated by DPI. Licensing specialists will accept only the DPI certificate, not grade reports.

If a person believes they took the DPI course while in high school, but no longer has the certificate, the person should submit and application for a Registry certificate. The Registry has a list of all students who completed the DPI-approved course since the program’s inception in 1999. The Registry certificate will indicate that the person is qualified as an assistant and the person’s learning record will include the DPI-approved course.

A minor under age 18 may work as an assistant upon completion of a DPI-approved course. These individuals may never be left in sole supervision of children including the first and last 2 hours of operation.

**SEE DCF 251.05 (3)(i). PERSON IN SOLE CHARGE OF CHILDREN – MINIMUM AGE and DCF 251.05 (3)(b) SUPERVISION – OPENING AND CLOSING HOURS.**

3. A parent serving as an assistant child care teacher in a center operated by a parent cooperative is exempt from the training requirements under subd. 2.

**Parents serving as assistant child care teachers in centers other than parent co-op must meet the requirements under 251.05(1)(g).**
(h) **Non-credit course criteria.** Non-credit courses offered to meet the non-credit course requirements specified in this subsection shall contain the components prescribed by the department and shall be approved by the department before being offered. The department may at any time withdraw its approval of a non-credit course. Instructors of non-credit department-approved courses shall be approved by the department prior to teaching a course.

**Note:** Information on the components prescribed by the department may be obtained by contacting one of the regional licensing offices in Appendix A. A list of agencies approved to offer non-credit department-approved courses is available on the department’s website at http://dcf.wisconsin.gov.

The department has approved the following non-credit courses as meeting the requirements for entry-level training for a child care provider:

- **Introduction to the Child Care Profession** (course for administrators, assistant teachers, substitutes, volunteer counted in staff-to-child ratios and the 1st broad-based course for teachers and center directors). The 40-hour family child care course taken prior to Sept 1, 2003, may be accepted in lieu of the Introduction to the Child Care Profession course.
- **Skills and Strategies for the Child Care Teacher** (2nd course for teachers and directors in a center licensed for 50 or fewer children).
- **Center (Program) Director** (40 hours or more). No longer approved. Taken prior to January 1, 2009, this course may be used as one of the 4 courses required for a center director of a large child care center licensed to care for 51 or more children.
- **Center Administrator** (40 hours or more). No longer approved. Taken prior to January 1, 2009, this course may be used as one of the 4 courses required for a center director of a large child care center licensed to care for 51 or more children or as the one course in business required for a center administrator.
- **10-hour Administrator course** (meets the 10 hours of training in supervision or personnel management for administrators or center directors).
- **Fundamentals of Infant and Toddler Care** (persons working with children under age 2).
- **10-hour School-age Assistant Child Care Worker** (meets the requirements for an assistant teacher in a school-age only program).

Beginning July 1, 2000, all persons who complete a department-approved non-credit course offered by a private agency used to meet entry-level qualifications are issued a certificate of completion from The Registry. The certificate of completion issued by the Registry, information contained on the individual’s learning record maintained by The Registry or a Registry certificate indicating the person has met the qualifications for the position held are the only documentation of successful course completion that will be accepted for department-approved courses offered by private agencies taken after July 1, 2000.

Successful completion of entry-level courses taken through an institution of higher education will be documented on a transcript.

High school courses that meet the entry-level training requirements will result in a certificate issued by the Department of Public Instruction—a grade report or high school transcript is not sufficient. A person holding a DPI paraprofessional or teacher aide license will need to document that they have completed the appropriate entry level training.

See Appendix J Resources List, Agencies Approved to Offer Non-Credit, Department-Approved Courses.

(i) **Certificate.** Each administrator, center director and child care teacher shall obtain a certificate from The Registry (the Wisconsin early childhood professional recognition system) within 3 months after assuming the position. An administrator, a center director and teachers in a school-age only program shall obtain a certificate from The Registry within 6 months after assuming the position. Persons holding a teacher license issued by the department of public instruction are not required to obtain a Registry certificate.

See DCF 251.04(5)(a)5. STAFF FILE–REGISTRY CERTIFICATE, EDUCATIONAL QUALIFICATIONS. The certificate from the Registry does not need to be renewed in order to meet the licensing rule.

Prior to the receipt of the Registry Certificate, new employees must have evidence of qualifications on file.

To check the progress of a Registry certificate, log into The Registry website using the ID number and password assigned. You may notice one of the following designations next to the applicant’s name:

- **Signed In:** Applied for a password only but have not started the application process.
- **Submitted:** Submitted the application, registry waiting on documentation
- **In Process:** Registry is reviewing documentation
- **Pending:** Registry is waiting for further documentation (something did not match up)

Students enrolled at a technical college, private college or university who work in a child care program operated by the college, private college or university have an additional 3 months to obtain a registry certificate.

**Note:** Information on obtaining a certificate from The Registry is available at http://www.the-registry.org or (608) 222–1123.
(j) Substitutes.
1. When a regular required staff member is absent from a center, there shall be a substitute who is at least 18 years of age.

If someone is scheduled to work in a classroom on a regular basis, they must be qualified. If an individual is replacing a regularly-scheduled employee as a substitute, the center must be able to demonstrate who the regularly-scheduled person in that classroom is during those hours. If there is no regularly-scheduled person except the “substitute” then, by default, the “substitute” is the regularly-scheduled person and must meet the qualifications for that position.

Evidence that substitutes are available may be obtained by reviewing personnel records, the background check eligibility-determination documentation, health examination forms, payroll or time cards or by observation.

2. A substitute who is employed by the same licensee for more than 240 hours shall obtain at least one non-credit, department-approved course or be currently enrolled in training to meet this requirement before completing 240 hours of work as a substitute. A substitute who provides care and supervision to children under age 5 shall have completed department-approved training in shaken baby syndrome as specified under par. (b) before working with children.

The 240 hours is cumulative, not each year. Training must be completed at the time the individual reaches 240 hours.

3. The center director or designee shall maintain a record of the days and hours worked by each substitute child care worker.

(k) Volunteers and student teachers.
1. Volunteers and student teachers shall participate in the orientation required under sub. (2)(a).

2. A volunteer who is used to meet staff-to-child ratios shall obtain at least one non-credit, department-approved course or be currently enrolled in training to meet this requirement before completing 240 hours of work as a volunteer. A volunteer who provides care and supervision to children under age 5 shall have completed department-approved training in shaken baby syndrome as specified under par. (b) before working with children.

Note: Introduction to the Child Care Profession is the non-credit course approved by the department to meet this requirement.

The 240 hours is cumulative, not each year. Except as specified above, training must be completed at the time the individual reaches 240 hours.

3. A volunteer who is not used to meet staff to child ratios shall have training in child care programming and procedures before working with children. The training shall include the responsibilities of the volunteer, general child supervision techniques, a review of the daily schedule and general health and safety practices including meal or snack preparation, dishwashing, toileting, personal hygiene and emergency evacuation procedures. This includes volunteers working in a center operated by a parent cooperative.

To determine background check requirements for volunteers, see the Department's website: https://dcf.wisconsin.gov/cclicensing/cbc.

The form titled: Volunteer Training Confirmation – Group Child Care Centers is not a required form; however, use of this form will help the licensee ensure compliance with this section. Documentation of training should be kept on file at the center.

4. The center director or designee shall coordinate the volunteer program and keep on file documentation of the hours worked by volunteers who are used to meet staff to child ratios.

5. Student teachers who are not employed by the child care center may not be used to meet the staff to child ratios during the time the person is working as a student teacher.

(L) Health examination.
1. Except as provided under subd. 2., persons who work directly with children, except volunteers, shall have a health examination within 12 months before beginning work at a specific child care center or within 30 days after beginning work at the center. The results of the examination shall be stated on a form provided by the department. The report shall be dated and signed by a licensed physician, physician assistant or HealthCheck provider. The report shall indicate all of the following:

HealthCheck Provider means:
1. Physicians.
2. Outpatient hospital facilities.
3. Health maintenance organizations.
4. Visiting nurse associations.
5. Clinics operated under a physician’s supervision.
7. Home health agencies.
8. Rural health clinics.
9. Indian health agencies.

Chiropractors are not authorized to give physical examinations.

See DCF 251.07(6)(k)3. HEALTH EXAMINATION – DOCUMENTATION. An initial physical exam and TB test is required. Subsequent physical exams and TB tests are not required.

An employee who works for a single licensee with multiple sites may use the original physical exam or TB test. No exception is necessary.

a. That the person is free from illness detrimental to children, including tuberculosis.

There are 2 different types of TB testing that will meet this requirement—Mantoux Skin test and Quantiferon Gold Blood Assay test. If either test indicates previous exposure to tuberculosis, further evaluation by a physician must be done. A written statement from the physician that the person does not have active TB is required.

b. That the person is physically able to work with young children.

Note: The department's form, Staff Health Report – Child Care Provider, is used for recording physical examination information. Information on how to obtain the department's form is available on the department's website, http://dcf.wisconsin.gov, or from any regional licensing office in Appendix A.

2. The health examination requirement under subd. 1. does not apply to a person who requests an exemption from the department in writing. The exemption is granted based on adherence to religious belief in exclusive use of prayer or spiritual means for healing in accordance with a bona fide religious sect or denomination.

The Christian Science faith is the only religion that qualifies under this exemption. Evidence of exemption is presented through a Christian Science form entitled Application for Exemption from Physical Examinations and Immunization.

3. No licensee, employee, volunteer, visitor or parent with symptoms of serious illness or a communicable disease transmitted through normal contact reportable under ch. DHS 145 which presents a safety or health risk to children may be in contact with the children in care.

4. a. No licensee, employee, volunteer, visitor or parent whose behavior gives reasonable concern for the safety of children may be in contact with the children in care.

b. The department may require a licensee, employee or other person in contact with the children whose behavior gives reasonable concern for the safety of children to submit to an examination by a licensed mental health professional as a condition of licensure or employment.

Note: See also DCF 251.11(1)(f) which requires a written statement from a physician or licensed mental health professional when there is reason to believe that the physical or mental health of a person may endanger children in care.

5. No person with a health history of typhoid, paratyphoid, dysentery or other diarrheal disease may work in a center until it is determined by appropriate tests that the person is not a carrier of the disease.

2) STAFF DEVELOPMENT.

(a) Orientation. Except as provided under subd. 12., each center shall develop and implement a written orientation program which all new employees, substitutes and regularly scheduled volunteers shall complete and document within their first week at the center. The orientation program shall cover all of the following:

See DCF 251.04(5)(a)6. STAFF FILE – ORIENTATION & CONTINUING EDUCATION. Completion must be documented on an orientation form which is initialed and dated by the staff person and trainer. The department’s form Staff Orientation Checklist – Group Child Care Centers will meet this requirement, but is not required.

In addition to the items specified in this section, orientation may be modified to address specific jobs. For example, orientation for a driver might include responsibilities of the driver such as emergency evacuation of the vehicle, operating and inspecting any vehicle safety alarm, guiding children’s behavior while in the vehicle, supervising children while transporting and communication procedures between the vehicle and the center. The orientation for a cook might include safe food handling procedures, sanitizing food contact surfaces, portion sizing and menu planning.

1. Review of this chapter.
2. Review of center policies required under s. DCF 251.04(2) and (i).
3. Review of the center contingency plans required under s. DCF 251.04(2)(i), including fire and tornado evacuation plans and the operation of fire extinguishers.
4. First aid procedures.

**Procedures that should be addressed include:**

- Emergency procedures followed in bringing a child to emergency medical care.
- Routine procedures for treatment of minor injuries.
- First aid measures for serious accidents.
- Planned source of emergency medical care.

*Training in first aid procedures does not mean a formal first aid course is required. The First Aid Chart prepared by the Committee on Accident Prevention and the Subcommittee on Accidental Poisoning, American Academy of Pediatrics is recommended as an appropriate training tool. Contact the American Academy of Pediatrics at (888)227-1770 or [www.aap.org/bookstore](http://www.aap.org/bookstore).*

5. Job responsibilities in relation to the job description.

6. Training in the recognition of childhood illnesses and infectious disease control, including handwashing procedures and universal precautions for handling body fluids.

**Note:** A copy of the universal precautions may be obtained from the Child Care Information Center by calling 800–362–7353.

7. Schedule of activities of the center.

8. Review of child abuse and neglect laws and center reporting procedures.

**See DCF 251.04 (8)(b) BIENNIAL TRAINING – CHILD ABUSE AND NEGLECT.**

9. The procedure for ensuring that all child care workers know the children assigned to their care and their whereabouts at all times including during center-provided transportation.

**Procedure should include how center will ensure that all children have exited the vehicle into the physical care of a staff person or another responsible person (e.g., physical walk through of the vehicle, alarms at the rear of the vehicle that require a person to walk to the back to manually shut off alarm, check off list of children who are on the vehicle and who have left the vehicle and been delivered to a caregiver); and should be followed whenever children are being transported.**

11. Procedure for sharing information related to a child’s special health care needs including any physical, emotional, social or cognitive disabilities with any child care worker who may be assigned to care for that child throughout the day.

12. Review of procedures to reduce the risk of sudden infant death syndrome prior to an employee’s or volunteer’s first day of work, if the center is licensed to care for children under one year of age.

13. The procedure to contact a parent if a child is absent from the center without prior notification from the parent.

**The procedure to contact a parent when a child is absent without prior notification must include how and when parents will be notified; and should include how long after a child’s normal or scheduled starting time the notification will be attempted (e.g., a child is scheduled to arrive at 7:30 a.m., center waits until 8 a.m. to contact parent if the child did not arrive). The procedure does not require that the center talk with or track down a parent to notify. Messages can be left on an answering machine or voice mail or with an emergency contact person. It is recommended that the center document attempts to notify a parent.**

**If center provides transportation services from home to center, procedure should address how the center is to be notified that a child is not attending that day (e.g., sign in the window of the home that child is not attending, prior notification to the center that child not attending, a second adult on the vehicle walks to the door to pick up the child, told at the door that child is not attending, etc.).**

14. Information on any special needs a child enrolled in the center may have and the plan for how those needs will be met.

**Note:** The licensee may use the department’s form, Staff Orientation Checklist – Group Child Care Centers, for documenting staff orientation. Information on how to obtain the department’s form is available on the department’s website, [http://dcf.wisconsin.gov](http://dcf.wisconsin.gov), or from any regional licensing office in Appendix A.
(b) Staff meetings. To ensure that staff have the opportunity to receive pertinent information and clarification of problems and issues, each center shall conduct staff meetings at least 9 times in a calendar year or one time for each month of center operation and document that staff meetings have been held.

Centers that operate for 10-12 months shall conduct staff meetings a minimum of 9 times in a calendar year.
Centers that operate for 9 months or less shall conduct a staff meeting for each month of operation.
Staff meeting dates shall be available to the licensing specialist.
Only that portion of a staff meeting related to training of child care staff may be counted as continuing education.
Center business topics do not count toward continuing education.

(c) Continuing education.

There is no formal approval process through licensing for continuing education. If the licensing specialist has a question about the appropriateness of a continuing education experience, the decision on whether to count that experience should be based on the individual’s response to the question, “How does this continuing education experience/course apply to your position?” Continuing education that relates to another position with the center (such as a director’s responsibilities) may be counted as continuing education even if it does not directly relate to the care of children.

Continuing education experiences that help qualify a child care worker for another position in a center may be counted as part of the required continuing education until that person assumes the new position (e.g., a child care teacher could take the courses for center director and count those courses toward continuing education while remaining a teacher in the center). Once the person assumes a director position, those courses would count toward meeting the entry-level qualifications as a center director.

Continuing education experiences that help qualify a child care worker for another position in a center may be counted as part of the required continuing education until that person assumes the new position (e.g., a child care teacher could take the courses for center director and count those courses toward continuing education while remaining a teacher in the center). Once the person assumes a director position, those courses would count toward meeting the entry-level qualifications as a center director.

Technical assistance received as part of the YoungStar program may be counted as continuing education for the individual(s) who participated in the technical assistance. For example, if the technical consultant met with the director, only the director may count the technical assistance as continuing education. If the technical consultant met with staff of a particular age group or classroom, only those staff may count the technical assistance as continuing education. The formal rating observation for YoungStar may not be counted as continuing education.

The director may count the courses in the Wisconsin Child Care Administrator Credential as continuing education. The department does not approve agencies or trainers for continuing education. However, the Registry’s Professional Development Approval System (PDAS) provides a platform for ensuring that training providers have met certain qualifications and that training topics are taught by qualified instructors. To find continuing education training see The Registry’s website: www.the-registry.org.

1. Each administrator, center director and child care worker who works more than 20 hours a week shall participate in at least 25 hours of continuing education each year.

Whether centers choose to use a continuing education year individual to each staff (e.g., 1 year from date of hire) or they choose to use a common continuing education year (e.g., the fiscal year or the calendar year), it is recommended that the same type of continuing education year be used consistently for all staff.

Staff who work only during the summer months need only participate in 6 hours of continuing education.

2. Each administrator, center director and child care worker who works 20 or fewer hours a week shall participate in at least 15 hours of continuing education each year.

In determining the number of hours an employee works, all paid hours should be used.

3. Continuing education hours may be used to meet the continuing education requirement during the year in which the hours are earned and for the 2 years following that year.

4. Continuing education courses taken for credit through an institution of higher education may be used to meet the continuing education requirement during the year the credits were earned and for the following 2 years.

Courses in the Wisconsin Child Care Administrator Credential taken for entry-level training to meet the requirement for a center director may be used to meet the continuing education requirements as specified in this rule.

See Appendix J Resources List, Credit to Hours Conversion – Technical Colleges and Universities.

5. Assistant child care teachers who are currently enrolled in their first entry level course are not required to earn continuing education hours for that calendar year.

7. Types of training acceptable to meet continuing education requirements shall be limited to:
   a. Formal courses resulting in credits or continuing education units.
   b. Workshops, conferences, seminars, lectures, correspondence courses and home study courses.
c. Training offered by the child care center through the use of guest or staff trainers.

d. Documented observation time in other early childhood programs.

8. Continuing education experiences may be in the areas of early childhood education, child development, child
guidance, health, caring for children with special needs, first aid, nutrition as it pertains to child development, supervision
of staff or the business or administrative aspects of the operation of a child care center or in communication skills.

9. Independent reading and watching of educational materials may be counted for up to 5 hours of continuing
education per year for each person required under par. (c)1. to have 25 hours of continuing education, and up to 2.5 hours
of continuing education per year for each person required under par. (c)2. to have 15 hours of continuing education.

Note: The licensee may use either the department’s form, Staff Continuing Education Record – Child Care Centers, or the
licensee’s own form to document the completion of continuing education. Information on how to obtain the department’s form is
available on the department’s website, http://dcf.wisconsin.gov, or from any regional licensing office in Appendix A.

Book reports, magazine article reviews and reviews of video tapes pertaining to child care issues independently completed
by staff may be substituted for up to 5 hours of the 25-hour requirement for full-time staff and 2.5 hours for part-time staff.
A report on the video, book, etc., that includes at least the information requested on the form, Continuing Education Record –
Independent Reading/Video Viewing, must be completed and placed in the employee file. While not required, this form may
be used to document independent reading and watching of educational materials.

Time spent doing research in the Child Development Associate (CDA) process can be counted as a part of these allowed
hours. Time spent putting together the portfolio in the CDA process does not count toward continuing education.

A staff trainer is one who has received training or who has developed expertise in a special area and who shares that
expertise with other staff through a formal presentation. A staff trainer may not count the time spent providing a presentation
 towards the continuing education requirement, but the time spent gathering information for use during the presentation may
be counted.

(d) Food service personnel orientation and training. The center shall provide food service personnel with the
orientation under par. (a) and shall document annual training of at least 4 hours in kitchen sanitation, food
handling and nutrition.

The requirement for annual training in kitchen sanitation, food handling and nutrition applies to individuals who prepare food.
Individuals who only serve food are not required to obtain this training.

A formal course in food handling is not required. Technical Colleges offer food handler courses. The USDA Child Adult Care
Food Program (CACFP) offers training that will meet this requirement to centers who are receiving CACFP funding.
Continuing education in excess of the 4 hours per year may be carried over for the 2 years following the year it was obtained.
See DCF 251.05(2)(c)3. CONTINUING EDUCATION–CARRY OVER HOURS.

(3) SUPERVISION.

(a) At least one child care teacher shall supervise each group of children.

This rule must be used in relation to the definition of group. When only one child care worker is required for the number
of children in care, that person must meet the qualifications of a child care teacher. When ratios require a second child care
worker with a group, that person must meet at least the qualifications of an assistant child care teacher. See DCF
251.05(1)(g)3. ASSISTANT TEACHER QUALIFICATIONS IN PARENT COOPERATIVE.

A qualified assistant child care teacher may remove part of the group for individualized activities while working under the
supervision of the child care teacher. See 251.03(31) DEFINITION – SUPERVISION OF STAFF.

(b) Assistant child care teachers who are at least 18 years of age and have completed the training required
for the position may provide sole supervision to a group of children in full-day centers for opening and closing
hours, not to exceed the first 2 hours and the last 2 hours of center operation.

(c) Each child shall be closely supervised by a child care worker who is within the sight and sound of the
children to guide the children’s behavior and activities, prevent harm and assure safety.

See DCF 251.03(30) DEFINITION – SUPERVISION OF CHILDREN and DCF 251.05(4)(e)1. NAPTIME – SUPERVISION.

Video cameras may not be used in lieu of staff to supervise children.

(d) A child care worker may not provide care to children at the center more than 10 hours in any 24-hour period.

(e) A child may not be in care more than 12 hours in any 24-hour period.

An exception may be granted to a child care center for a child or children to be in care for more than 12 hours in a 24-hour
period if a local business or corporation operates a 12-hour work shift for their employees or if the Department determines
that granting an exception would support the circumstances and the family. The exception does not need to be individual to
each child if the exception is granted in relation to employees of a specific business. A written parental request for care in
excess of 12 hours must be on file at the center.
251.05(3)(f)

(f) The center shall implement a procedure to ensure that the number, names and whereabouts of children in care are known to assigned child care workers at all times.

At all times throughout the day (hours of operation), each classroom staff must have a written or documented system to determine how many children are present and the names of the children that are present. This includes during transportation and field trips. See DCF 251.04(3)(i) REPORT – LOST OR MISSING CHILD.

(g) A child may not be released to any person who has not been previously authorized by the parent.

The center may accept an authorization by email, fax or telephone call. The Department recommends a center document a telephone call authorization and that identification of the person picking up a child be checked.

(h) The center shall implement a procedure to contact a parent if a child is absent from the center without prior notification from the parent.

(i) No child shall be left in sole charge of a person under the age of 18.

(4) STAFFING AND GROUPING.

(a) The maximum number of children in a group may not exceed the number specified in Table 251.05−D.

(b) The ratio of child care workers to children may not be less than the minimum number of child care workers to children specified in Table 251.05−D.

(c) When 8 or fewer children are present in a center, there shall be a second adult available within 5 minutes for emergencies. The center shall maintain a signed and dated statement from that person, including address and telephone number, certifying that the person is available and agrees to serve if needed.

Current availability should be updated periodically to confirm the person’s continuing availability. The address should be evaluated in terms of distance and length of time which would be required to reach center in an emergency. Staff members must be informed about and have access to current contact information for the emergency contact person. Telephone confirmation with the second adult may be utilized as a compliance check.

(d) Maximum group size does not apply to field trips, outdoor play areas and areas of the center reserved exclusively for eating, however staff-to-child ratios shall be maintained in those settings.

This rule applies to all age groups, including infants and toddlers.

An area of the center that is used for other purposes (i.e. a classroom or large motor room) throughout the day may be reserved exclusively for eating at designated times. Maximum group size does not apply when the room is used for eating.

(e) During naptime, an adjustment in group size and staff-to-child ratios in Table 251.05−D may be made as follows:

1. One child care worker shall be within sight or sound of each group of sleeping children. If at least one child is awake, sight and sound supervision of awake children is required.

Electronic listening devices may be allowed for supervising sleeping children under 2 years of age who sleep in cribs. Consideration should be given to the quality of the device, proximity/accessibility of staff and noise levels in other areas that may interfere with staff's ability to hear. Video cameras are not allowed in place of staff supervision.

2. Adult-to-child ratios shall be maintained in the center during naptime.

See DCF 251.03(30) DEFINITION – SUPERVISION OF CHILDREN. Support staff such as cooks, clerical staff, custodians or the center director may be counted in the adult-to-child ratios during naptime providing the staff person is aware that they may be called upon, has been oriented to his/her responsibilities and agrees to be available during that time. A support staff used to maintain ratios during naptime may be counted for one position at a time. Verification of a person’s awareness that the center is using that person to count in the staff-to-child ratio during naptime may be made through interview or written documentation.
As children awaken from nap, child care workers must provide close supervision to the awake children and maximum group size and staff-to-child ratios must be met at all times. For example, when a group of 3 year old children are napping, only 1 person is required when 10 or fewer children are awake. As soon as the 11th child wakes up, 2 staff persons (at least 1 person must be a child care teacher) must be present to provide close supervision.

3. Maximum group size requirements do not apply to napping groups.

When a center has a separate nap room for infants and toddlers, maximum group size does not apply and one child care worker must be within sight or sound when all children are sleeping. See DCF 251.05(4)(e)1. NAPTIME – STAFF-TO-CHILD RATIO AND SUPERVISION.

(f) When there is a mixed-age group, the staff-to-child ratio shall be adjusted on a prorata basis, according to age.

Note: The licensee may use the department’s form, Child Care Staff-To-Child Ratio Worksheet – Group Child Care Centers, to adjust the staff-to-child ratio. Information on how to obtain the department’s form is available on the department’s website, http://dcf.wisconsin.gov, or from any regional licensing office in Appendix A.

See Appendix H, Child Care Staff-To-Child Ratio Worksheet.

When using the Child Care Staff-to-Child Ratio Worksheet (found in Appendix H or on the department’s website https://dcf.wisconsin.gov), any total numerical weight below .05 is considered statistically insignificant and should be dropped. If the total numerical weight is 1.05 or above, two staff persons are required. If the total numerical weight is 1.04, drop the .04 and only 1 staff member is required.

(g) When infants and toddlers are part of a mixed-age group, the size of the group may not exceed 8.

Children turning age 2 may transition into an older age group as long as the new group size does not exceed 8 children and the child’s second birthday is no more than 2 weeks prior to the transition date. Transition of a child to a new age group needs to be planned, and discussed with parents prior to the transition.

(h) When the group of children is a mixed age group of children 2 years and older, the group size shall be determined by the number of children that can be cared for by 2 child care workers as determined by the staff-to-child prorata requirement under par. (f).

(i) In a center with 9 or more children present, there shall be at least 2 adults available in the center at all times. At least one of the adults shall be a child care worker directly involved in the supervision and care of the children.

When nine or more children are present in a center, but a second worker is not required by the staff-to-child ratio, a second adult must be available in the building, such as secretary, minister, cook, etc. The second adult should be aware that they may be asked for assistance in the case of an emergency.

(j) When 9 or more children are on a field trip there shall be at least 2 child care workers accompanying the children and the staff-to-child ratios in Table DCF 251.05–D shall be maintained. At least one of the child care workers shall be a child care teacher.

(k) Support staff, such as clerical, housekeeping and food service staff, may only be considered in determining the staff-to-child ratios:

1. During those hours when they give full attention to the care and supervision of children.

2. If they meet the qualifications for a child care worker.

(l) Child care workers shall be free of non-classroom duties when they are counted in meeting the staff-to-child ratios.

Classroom duties could include routine daily housekeeping in the classroom such as dusting, floor sweeping, table/chair washing, straightening the room, putting out bag lunches with milk, preparing snack in the room, etc., if these are part of the job responsibility prescribed by the center and do not consume the full attention of the staff person.

In centers where space used by children is used for other purposes after the hours of operation, prohibited non-classroom duties include moving furnishings and equipment into storage before children have departed.

If support staff are used as child care workers, the schedule of differing job responsibilities in relation to staff-to-child ratios must be determined. An example may be a child care worker who prepares a snack or meal which requires no more than 10 minutes time and who is immediately accessible in case of emergency is still considered to be a child care worker while performing these tasks. If food preparation takes more than 10 minutes and/or removes the child care worker from immediate availability, the child care worker is considered to be support staff for that time period and does not count in determining staff-to-child ratios.

(m) Children of staff who attend the center and who are on the premises for supervision and care shall be included in determining group size and staff-to-child ratios.
