RE: Revisions to DCF 250 – Licensing Rules for Family Child Care Centers
Creation of DCF 13 – Child Care Background Checks

The primary purpose of the emergency rule changes is to ensure that, by September 30, 2019, the department's licensed family child care rules comply with the health and safety requirements found in the Child Care and Development Block Grant (CCDBG) Act of 2014. The rule also regroups the licensed family rules that address the same topics in different places, eliminates duplicative revisions, corrects errors, incorporates state statutory requirements, and clarifies language where needed to ensure proper implementation and administration of the health and safety requirements.

Summary of DCF 250 Licensing Changes for Family Child Care

This memo does not include every repeal, revision, or addition to DCF 250 and should not be used as a substitute for a thorough review of the revised licensing rules.

Staffing and Supervision Rule Changes:

1. Licensed family providers may care for children up to 16 hours per day.
2. Children may be in care for up to 14 hours per day.
3. CPR and automated external defibrillator (AED) training will need to be completed within 3 months of becoming licensed or beginning to work with children.
4. The rules related to emergency planning will be clarified to specify that emergency plans must include procedures that address evacuation, relocation, shelter-in-place, lock-down, communication with parents, procedures that ensure that the needs of children under age 2 and children with disabilities are met when utilizing emergency procedures, food emergencies, and allergic reactions.
5. Orientation topics have been expanded to ensure CCDBG topics are covered.

Transportation Rule Changes:

1. Drivers need a training before they can transport children, and annually thereafter.
2. No child may be in a vehicle for transportation to or from a center, a field trip, or other center activity for more than 60 minutes for a one-way trip.

Other Rule Changes:

1. Dual regulation for licensed and certified family child care providers will be eliminated
2. Family applicants and licensees must be individuals. At the time of license continuation, any family child care center whose licensee or operator is a corporation, limited liability company, non-incorporated association, or cooperative will need to identify the individual to be licensed.
3. Rules will be consolidated and grouped with other similar rules, such as personal hygiene (handwashing), medical log books, children's records, and staff files.
4. Rules regarding safe sleep environments have been updated. No soft or loose objects are allowed in cribs or playpens for children under 1 year of age, including blankets, flat sheets, and pacifiers with attached soft objects.

DCF 13 Rule Creation

DCF 13 Background Checks for Child Care Programs, is based on the existing requirements under s. 48.686, Stats. The newly created DCF 13 includes provisions on submitting a background check request to the department and the required appeal process. Additional information regarding background check is located <https://dcf.wisconsin.gov/ccbgcheck> and background check appeals can be found here: <https://dcf.wisconsin.gov/ccbgcheck/appeals>.

Additional Information

The department is working on updates to licensing forms, publications, and webpages to reflect changes in the rule. Please be sure to use the most recent version of each form available on the department's website.

The approved rules will be available at <https://dcf.wisconsin.gov/childcare/ccadminrule> on September 30, 2019. Commentary manuals will be taken off the website by September 30 but will be available again when the permanent rule goes into effect in March 2020. Printed rule books will also be available in March.

If you have questions or require assistance in accessing information or forms on the DCF website, please contact your regional licensing office.
