

Funding Opportunities for Early Care & Education Providers

The COVID-19 pandemic has highlighted the critical role the state’s early care and education (ECE) system plays for both families and businesses alike. Now, more than ever, Wisconsin’s work to address pervasive challenges around equity, access, quality and affordability within the ECE system are imperative to helping the state move forward. In addition to the nearly \$236 million of stimulus funding the Department of Children and Families has invested on child care, several other state agencies, including the Department of Workforce Development (DWD) and the Wisconsin Economic Development Corporation (WEDC), are committed to working together to help build a more sustainable future for Wisconsin’s ECE providers and families. The opportunities listed below can be used to invest in worker training, move or expand existing child care centers, and cover the cost of COVID-related sick leave.
