

Standards Revision Meeting

April 25, 2024

Meeting minutes

Intros and welcomes

Darald Hanusa, Gillian, Bridget Connolly, Courtney Olson, Kari Niesen LaScala, Jaime Sathasivam, Chris Taylor, Jolynn Woehrer, Marlys Howe

Update on governor's council discussion around our work group

Meeting minutes are now required at all work group meetings.

We may fall under Open Meeting laws, that is being determined through corp counsel.

Questions: Do folks from the public want to attend? Can we record our zoom meetings for transparency?

Determined that we will record all future meetings

Jolynn update: things going really well. Sessions are lasting longer than an hour. Who should we encourage more folks to engage. Use Jolynn to help engage your community members. Many common overlaps and many common misunderstandings. Jolynn will create a report by end of June with recommendations.

Next Steps?

What barriers do we foresee once we create our values?

How do we get buy in from our counties and courts to use these standards/values/principles? How do we get it to be a requirement that folks use this tool vs. their own tools? This must be affordable for most people, how do we do that? Is Public Health a better channel than DOC? Are sliding fee Scales an option? Should we be working on Funding instead of the values since we have a basis for the standards but are not able to move forward without funding. What does our work look like with End Abuse and WCASA to work strategically toward funding. Does doing the standards first frame our funding requests better?
