### Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On July 10, 2015, the agency received a report regarding two 10 month-old infants observed to appear as newborns. The infants were brought to the hospital due to suspected maltreatment. Medical professionals who examined the infants diagnosed them with Non-organic Failure to Thrive, Severe Malnutrition, and Neglect of a Child. The infants were admitted to the hospital and discharged 11 days later. Law enforcement was contacted and initiated a criminal investigation regarding the infants's suspicious medical diagnosis. As a result of law enforcement's investigation, the mother was arrested and criminally charged with two counts of Neglecting a Child (Consequence is Bodily Harm). A criminal charge is merely an allegation and a defendant is presumed innocent until and unless proven guilty.

### Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of neglect by the mother to the infants. Medical professionals diagnosed the infants with Non-organic Failure to Thrive, Severe Malnutrition, and Neglect of a Child. The Initial Assessment completed by the agency also included an allegation of neglect of the infants' 1-year-old sister by the mother for which insufficient evidence to substantiate this allegation. The infants and their 1-year-old sister were deemed unsafe and taken into Temporary Physical Custody. The 1-year-old was placed in out-of-home care with a non-relative provider and upon discharge from the hospital the infants were placed with the same non-relative provider. The mother was criminally charged. A Child in Need of Protection or Services petition was filed and the case remained open to provide ongoing case management services.
