Age: 8 Months Gender: Female Male

Race or Ethnicity: White

Special Needs: None

Date of Incident: 11/27/2016

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On 11/27/2016, the agency received a report regarding a 8-month-old infant found unresponsive at her out-of-home care relative provider's home. The infant was pronounced deceased upon arrival at the hospital. Law enforcement was contacted and initiated a criminal investigation regarding the infant's death. The Medical Examiner's Office report noted no signs of maltreatment or trauma to the infant. The official cause of the infant's death made by the Medical Examiner's Office was pulmonary edema of the lungs most likely due to a high risk sleep environment; toxicology results are pending. No criminal charges were filed and the case was closed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The initial assessment completed by the agency found insufficient evidence to substantiate neglect of the infant by the out-of-home care relative provider. The Medical Examiner's Office completed report noted no signs of maltreatment or trauma to the infant. The agency determined the deceased infant's siblings safe and they remained with the out-of-home care relative provider. The agency closed the case upon completion of the initial assessment relating to the child's death, however the ongoing case regarding the biological parents remains open. Grief counseling service referrals were made.
