Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On March 30, 2020, the agency received a report regarding a 3-month-old infant pronounced deceased in his home. Law enforcement was contacted and initiated a criminal investigation. The Medical Examiner's Office noted signs of trauma to the infant; toxicology results are pending. As a result of law enforcement's investigation, the mother was criminally charged with Chronic Neglect of a Child (Consequence is Great Bodily Harm). A criminal charge is merely an allegation and a defendant is presumed innocent until and unless proven guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate neglect of the infant by the mother and to substantiate physical abuse to the infant by an unknown maltreater. The Medical Examiner's Office noted signs of trauma to the infant. The infant's siblings were deemed unsafe, taken into Temporary Physical Custody, and placed with relatives. Petitions for Protection or Services were filed and the case remained open to provide ongoing case management services.
