Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On August 14, 2020, the agency received a report regarding two 1-year-old infants brought to the hospital with multiple injuries. The infants were in out-of-home placement and residing in a non-relative foster home. The injuries were reported to have occurred when the infants were on a visit with their family. Law enforcement was contacted and initiated a criminal investigation. Medical professionals determined the injuries were non-accidental in nature. No criminal charges have been filed in this case, and the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infants by an unknown maltreater. Medical professionals determined the injuries were non-accidental in nature. The agency deemed the infants and their 5-year-old sibling unsafe with their mother and father and safe in their out-of-home placement. The infants and their 5-year-old sibling remained in the non-relative foster home. The case remains open to provide ongoing case management services.
