Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On September 17, 2012, the agency received a report regarding an incident of excessive physical discipline which occurred two days prior. The agency and law enforcement responded to the report and interviewed the twin girls regarding the incident. Both girls were noted to have multiple injuries on various parts of their bodies and reported they had been repeatedly hit with an extension cord and a belt by their father. The girls reported that this type of discipline has occurred approximately 1-2 times per week and took place in the basement of the home. The father reportedly locked the basement door and one of the parents would turn on loud music to muffle any sounds the children would make while being hit. The children were told to lie on their stomachs on the couch in the basement and were then repeatedly struck with a belt and extension cord. The girls reported receiving excessive physical discipline from the mother as well. The girls also reported being concerned because the parents were starting to use physical discipline with their 11-year-old brother. The mother admitted to law enforcement that all of the children have received physical discipline, except the 4-year-old. The father has been criminally charged with three counts of Child Abuse – Intentionally Cause Harm and was found guilty. The mother has been criminally charged with two counts of Child Abuse – Intentionally Cause Harm and two counts of Child Abuse – Fail/Prevent Bodily Harm and was found guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. Based on the information gathered, the Initial Assessment completed by the agency found a preponderance of the evidence to substantiate physical abuse to the children by both parents. The children described a pattern of physical discipline including being punched, hit with objects, having objects thrown at them, and being threatened with severe bodily harm. The children were reportedly told to lie if anyone questioned them about their injuries. The children's mother acknowledged she uses objects to hit her older children when they misbehave. The children's father denied using physical discipline with his children. The twins were examined by medical professionals who noted numerous scars and injuries which were determined to be consistent with inflicted injury. All four children were determined unsafe and were placed in out-of-home care. A Child in Need of Protection or Services was filed and the family was opened with On-Going Services for case management.
