Date of Incident: April 18, 2013

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On April 18, 2013, a child was admitted to the hospital with a head injury and retinal hemorrhaging. The injuries occurred while the child was in the sole care of her mother during a middle of the night feeding. The mother initially reported that she tripped over the family's cat while carrying the child, causing her to fall to her knees causing the child's neck to "snap" backwards. The mother subsequently admitted she violently shook the child after tripping over the cat. Medical personnel also determined the child had a healing hematoma; the mother admitted she forcefully threw/dropped the child into her basinet two to three weeks prior, which likely accounted for the injury.

The mother was charged with two counts of Child Abuse-Intentionally Cause Great Bodily Harm. The mother was found guilty of two counts of Child Abuse-Intentionally Cause Great Bodily Harm.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of evidence to substantiate physical abuse to the child by the child's mother. The mother admitted she is often frustrated, sleep-deprived, and on edge with the child and the child's older siblings. The agency determined the child and her siblings unsafe and took temporary physical custody and placed them in the care of relatives. A Child in Need of Protection or Services petition was filed and the case remained open to provide ongoing case management services.
