Child Information (at time of incident)

Age: 8 weeks Gender: Female Male

Race or Ethnicity: White/Caucasian

Special Needs: None

Date of Incident: August 24, 2013

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On August 26, 2013, the agency received a report of an 8 week old infant taken to the hospital via med-flight on August 24, 2013, due to a subdural hematoma and retinal hemorrhaging. Upon arrival, the child was not breathing. Medical professionals suspected physical abuse due to the types of injuries. The child's mother explained the infant hit his head hard on the floor while she changed his diaper. Criminal charges were not filed in this case.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the county agency found a preponderance of evidence to substantiate physical abuse to the child by an unknown maltreater. The agency substantiated physical abuse by an unknown maltreater because the injuries to the child were diagnosed as non-accidental, but there was insufficient evidence to substantiate a specific person. The child was determined as unsafe and taken into temporary physical custody by the agency and placed in a foster home. A Child in Need of Protection and Services petition was filed with juvenile court. The case was opened for on-going case management services.
