**Case Tracking Number:** 131006DSP-Milw-371      **Agency:** Bureau of Milwaukee Child Welfare

**Child Information** (at time of incident)

Age: 3 months      Gender:  Female    Male

Race or Ethnicity: African American

Special Needs: None known

**Date of Incident:** October 6, 2013

**Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:**

On October 6, 2013, the agency received a report regarding a three-month-old infant pronounced dead in her home. The report further noted concerns of neglect due to the home's condition on the same date. Law enforcement and the Medical Examiner's office responded and initiated an investigation into the infant's sudden unexplained death. During interviews conducted by law enforcement, the mother reported she went to a family gathering with her five children the prior evening. She stated she consumed two eight-ounce margarita drinks and a sip of whiskey while at the party. She later recalled she also drank three shots of rum before leaving for the party. The mother and children returned home in the late evening. The mother stated she took the infant and the infant's two-year-old sister to bed with her where she slept in between them. The infant's alleged father reported he returned home about two hours later from going out with friends after work. He indicated he picked up the infant to move her and found the infant unresponsive. He woke up the mother, called 911, and started CPR. Paramedics responded and continued rescue efforts, but were unsuccessful and pronounced the infant deceased. Law enforcement's investigation of the infant's death is pending, and no criminal charges have been filed. The official cause of the infant's death remains undetermined by the Medical Examiner's Office, as toxicology results for the infant and mother are pending.

**Findings by agency, including maltreatment determination and material circumstances leading to incident:**

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the county agency has insufficient evidence to substantiate the maltreatment of neglect to the infant and the infant's four older siblings by the mother. The Medical Examiner's office advised that no injuries or signs of trauma were observed on the infant. Toxicology results for the infant and mother are pending; therefore, official cause of death is not yet determined and law enforcement's investigation is not complete. A protective plan was implemented by the agency for relatives to provide care for the infant's four older siblings until their safety in the home was fully assessed. The agency's Initial Assessment determined the siblings' safe in the mother and alleged father's care and the protective plan was terminated. No further services for the family were deemed necessary.

**Summary of actions taken by the agency under ch. 48, including any investigation of a report or referrals to services involving the child, any member of the child's family living in this household and the child's parents and alleged maltreater.** (Does not include the current incident.)

(Note: Screened out reports listed in this section may include only the date of the report, screening decision, and if a referral to services occurred at Access. Reports that do not constitute a reasonable suspicion of maltreatment or a reason to believe that the child is threatened with harm are not required to be screened in for an initial assessment, and no further action is required by the agency.)

On 9/16/2010, the agency screened in a CPS Report alleging neglect to the four-year-old (now seven-year-old) by the mother. An assessment was completed and the allegations of neglect were unsubstantiated. No safety concerns were found and the agency closed the case.

On 9/12/2012, the agency screened in a CPS Report alleging neglect to the six-year-old (now seven-year-old), four-year-old (now five-year-old), two-year-old (now three-year-old) and 10-month-old (now two-year-old) by the mother. An assessment was completed and the allegations of neglect were unsubstantiated. The children did not show any signs of maltreatment and the mother was found to be meeting their needs, so the agency closed the case.

On 9/12/2012, the agency screened out a CPS Report.

On 2/15/2013, the agency screened out a CPS Report.

**Summary of any investigation involving the child, any member of the child's family and alleged maltreater conducted under ch. 48 or ch. 938 and any services provided to the child and child's family since the date of the incident:**

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the county agency has insufficient evidence to substantiate the maltreatment of neglect to the infant and the infant's four older siblings by the mother. The Medical Examiner's office advised that no injuries or signs of trauma were observed on the infant.
