Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On January 3, 2014, the agency received a report regarding a five-month-old infant pronounced deceased in her home. Law Enforcement initiated an investigation into the infant's unexplained death.

The mother and father reported the previous night the infant was taken to the emergency room due to a 103 degree temperature. Medical professionals diagnosed the infant with an ear infection which was treated with antibiotics. The family reported they returned home from the hospital around 2:30 a.m., fed the infant, and put her to sleep in her bassinette. The father stated at 3:45 a.m. he heard the infant fussing so he placed a pacifier in her mouth. The mother and father indicated when they awoke at 11:00 a.m. they found the infant not breathing, called 911, and the father provided resuscitation efforts until paramedics arrived.

The Medical Examiner's Office report noted no signs of maltreatment or trauma to the infant. The official cause of the infant's death was undetermined by the Medical Examiner's Office; toxicology results were negative. No criminal charges were filed and the investigation is closed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the agency found insufficient evidence to substantiate neglect of the infant by the mother or the father. The Medical Examiner's Office completed report noted no signs of maltreatment or trauma to the infant. The official cause of the infant's death was undetermined by the Medical Examiner's Office; toxicology results were negative. The agency closed the initial assessment and no service referrals were made.
