Child Information (at time of incident)

Age: 2 Months Gender: Female Male

Race or Ethnicity: Caucasian

Special Needs: None

Date of Incident: February 26, 2014

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On February 26, 2014, the agency received a report regarding a two-month-old child with rib fractures. Law enforcement was contacted and initiated a criminal investigation regarding the child's suspicious injuries.

The mother reported she brought the child to the hospital due to respiratory symptoms. The hospital diagnosed the child with bronchitis and gave the mother a prescription. The mother stated when she returned home with the child she was informed the hospital found multiple fractures from the x-rays that were just completed on the child. The mother and father returned to the hospital with the child. The mother and father were both interviewed and initially reported no knowledge of how the injuries could have occurred. The father subsequently provided several explanations for how the child could have been injured; however, medical professionals determined none of the explanations given were consistent with the child's injuries.

Medical professionals determined the child had multiple fractures to his arm, leg, clavicle, and ribs with different stages of healing. No criminal charges have been filed in this case, but the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the child by father. Medical professionals determined the child sustained multiple fractures and diagnosed the child with non-accidental trauma. The child and his sibling were deemed unsafe, taken into Temporary Physical Custody, and placed in out-of-home care. A Child in Need of Protection or Services petition was filed and the case remained open to provide ongoing case management services.
