**Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:**

On March 9, 2014, the agency received a report regarding a 14-month-old child who had been pronounced dead in his home. The mother reported to law enforcement that she put a pillow over the baby's face while he was sleeping and held it there until he stopped moving. She then sent the baby's father a text stating that he should come to the home to check on her and the baby. The mother then attempted to commit suicide by taking multiple pills and also attempted to electrocute herself. The father called the police in response to the text he had received from the mother, and asked that they go to the home to check on his son. When paramedics and law enforcement arrived at the home, they found the baby deceased and the mother lying in her bed nonresponsive. The mother was taken to the hospital. Upon her release, she was taken into police custody and was charged with and convicted of a class B Felony count of 1st Degree Reckless Homicide (Wisconsin Statutes 940.02(1)).

**Findings by agency, including maltreatment determination and material circumstances leading to incident:**

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of evidence to substantiate maltreatment of physical abuse to the child by the mother. According to the Medical Examiner's preliminary report, the suggested manner of death was homicide. The final Medical Examiners' report is pending. The mother admitted to intentionally putting a pillow over the baby's face and holding it over his face until he stopped moving. As there are no other children in the home, the case was closed.
