

## 90-Day Summary Report for Child Death, Serious Injury or Egregious Incident

Reports submitted to the Division of Safety and Permanence (DSP) that do not include all of the required information will be returned to the agency for proper completion. Do not identify individuals by name when completing this report. Individuals may be referenced by relationship or position; e.g., mother, father, child, sibling, physician, detective, etc.

**Case Tracking Number:** 140426DSP-Winn-438      **Agency:** Winnebago County Department of Human Services

**Child Information** (at time of incident)

Age: Newborn      Gender:  Female  Male

Race or Ethnicity: White, Caucasian

Special Needs: None

**Date of Incident:** April 26, 2014

**Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:**

On May 4, 2014, the agency received a report regarding an infant who was born on April 26, 2014 with several complications. It was reported the pregnant mother came to the hospital with a history of vomiting and abdominal pain. In utero, the infant's heart rate was very low and continued to decrease to the point of no detection of any heart rate. The infant was born at 29 weeks by an emergency caesarean section due to a placenta disruption. Upon birth, the infant had several bruises, severe birth asphyxia, and hypoxic encephalopathy. The infant was showing seizure activity; however, his heart rate and blood pressure dropped and resuscitation efforts were unsuccessful. Law Enforcement was contacted and initiated a criminal investigation into the infant's unexplained death.

The mother tested positive for marijuana and methadone prior to delivery. The mother admitted to being a cigarette smoker and occasional drinker throughout her pregnancy. No criminal charges have been filed in this case, but the investigation remains open.

**Findings by agency, including maltreatment determination and material circumstances leading to incident:**

The agency collaborated with law enforcement and medical personnel to complete the assessment. The agency, law enforcement, and the medical examiner did not receive the report until a week after the infant's death which made it difficult to gather necessary information to assess the mother's impact on the infant's death. As of May 5, 2014, the official cause of the infant's death was undetermined by the Medical Examiner's Office; toxicology results were pending and no evidence of definitive traumatic injuries. Due to the mother's lack of cooperation with the agency, the initial assessment concluded with an assessment result of "unable to locate sources." As there were no other children in the home, the case was closed.

Yes  No  Not Applicable This 90-day summary report completes the Division of Safety and Permanence (DSP) action on this case.

If the case review was not completed within 90 days, the DSP will complete and submit the final summary report within 6 months.

This 90-Day Summary Report was previously delayed. DSP did determine that releasing the summary report would jeopardize an ongoing criminal proceeding, and delayed posting as provided under Wis. Stat. § 48.981(7)(cr)7.
