Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On 06/05/2014, the agency received a report regarding a two-year-old child brought to the hospital with multiple wounds on the neck and head. The child was intubated and transported to another hospital for surgery to repair the wounds. At the time of the incident the child was being cared for by her father while her mother was working. The father provided multiple explanations for the child's injuries. The child was discharged from hospital and is expected to make a full recovery.

The agency along with medical professionals and law enforcement determined that the child's injuries to her neck and head were from the pet dog. No criminal charges have been filed in this case, and the investigation is completed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found insufficient evidence to substantiate physical abuse of the child by the father. It was determined the child's injuries to her neck and head were from the pet dog. The agency determined the child safe and the child remained with her mother and father.
