Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On January 2, 2015, the agency received a report regarding a four-year-old child brought to the hospital as unresponsive. Medical professionals who examined the child suspected head trauma due to the child's presenting symptoms, so the child was transported to another hospital. Law enforcement was contacted and initiated a criminal investigation regarding the child's suspicious injuries.

Medical personnel noted no signs of maltreatment or trauma to the infant. No criminal charges have been filed in this case and investigation is closed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found insufficient evidence to substantiate physical abuse of the child by the parents or any other party.

The agency determined the child safe and the child remained with his biological mother. The agency closed the initial assessment and no service referrals were made.
