Agency: Brown County Human Services Department

Child Information (at time of

incident) Age: < 1 Day

Gender: Female Male

Race or Ethnicity: Native American

Special Needs: None

Date of Incident: 07/05/2015

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On July 5, 2015, the agency received a report regarding an infant pronounced deceased shortly after the time of birth. The Medical Examiner identified no medical reasons for the premature birth and subsequent death of the infant shortly after her birth and the cause of the infant's premature birth and subsequent death were identified to be related to poly substances toxicity. Law Enforcement was contacted and initiated a criminal investigation into the infant's death. No criminal charges have been filed in this case, but the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of neglect to the infant by the mother. Medical professionals determined the infant's premature birth and death shortly after birth were related to poly substances toxicity. While the agency determined that deceased infant's sibling would be unsafe in the family home, the mother and sibling's whereabouts were unknown at the time of the assessment. Once the mother and the deceased infant's sibling are located, the sibling will be taken into custody. A Child in Need of Protection or Services petition was filed and the case remained open to provide ongoing case management services.
