Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On November 25, 2015 the agency received a report regarding an 11 week old infant that was transported to the hospital with injuries. Medical professionals who examined the infant suspected abusive trauma due to the infant's presenting symptoms. Law enforcement was contacted and initiated a criminal investigation regarding the infant's suspicious injuries. Medical personnel diagnosed the infant with Child Physical Abuse and Abusive Head Trauma. No criminal charges have been filed in this case, but the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infant by the infant's father. Medical professionals determined the infant sustained several injuries including head injuries and diagnosed the infant with Abusive Head Trauma. The infant and his siblings were deemed unsafe and taken into Temporary Physical Custody. The infant's siblings were placed in the home of a relative and, upon his discharge from the hospital, the infant was placed in a foster home. A Child in Need of Protection or Services petition was filed and the case remained open to provide ongoing case management services.
