Age: 2 Months  Gender: □ Female  □ Male
Race or Ethnicity: White  Special Needs: None

Date of Incident: 02/01/2016

Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:
On February 3, 2016, the agency received a report regarding a 10-week-old infant brought to the hospital with suspicious injuries. Medical professionals who examined the infant suspected trauma due to the infant's presenting symptoms, so the infant was transported to another hospital, where he later died. Law enforcement was contacted and initiated a criminal investigation regarding the infant's suspicious injuries. The Medical Examiner's Office report noted several signs of maltreatment, however, the cause of death remains unknown at this time. The official cause of the infant's death was undetermined by the Medical Examiner's Office and toxicology results were negative. No criminal charges have been filed in this case, but the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:
The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infant by the father. Medical professionals determined the infant sustained injuries as a result of physical abuse, however the infant's cause of death remains undetermined. The agency closed the case upon completion of the Initial Assessment and no service referrals were made.
