Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On January 26, 2017, the agency received a report regarding a 2-year-old child pronounced dead in his home. Law enforcement was contacted and initiated a criminal investigation regarding the child's unexplained death. The Medical Examiner's Office report determined that the child died as a result of ingesting prescription medication. As a result of law enforcement's investigation, the infant's mother was arrested and criminally charged with 2nd Degree Recklessly Endangering Safety. A criminal charge is merely an allegation and a defendant is presumed innocent until proven guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of evidence to substantiate allegations of neglect to the 2-year-old child and his 4-year-old sibling by their mother. The Medical Examiner's Office determined that the 2-year-old child died as a result of ingesting prescription medication. The child's 4-year-old sibling was deemed unsafe, taken into Temporary Physical Custody, and placed in out-of-home care. The case remained open for ongoing case management services.
