Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On March 18, 2017, the agency received a report regarding a 15-month-old infant brought to the hospital for injuries sustained on March 15, 2017. Medical professionals who examined the infant determined he had bleeding on the brain and the infant was transported to another hospital. Law enforcement was contacted and initiated a criminal investigation regarding the infant's suspicious injuries. Medical personnel diagnosed the infant with non-accidental abusive head trauma. As a result of law enforcement's investigation, the babysitter was arrested and criminally charged with 1st Degree Reckless Injury, Child Abuse - Recklessly Cause Great Harm and Neglecting a child (Consequence is Great Bodily Harm). A criminal charge is merely an allegation and a defendant is presumed innocent until and unless proven guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infant by the babysitter. Medical professionals determined the infant sustained head injuries and diagnosed him with non-accidental abusive head trauma. The infant was discharged from the hospital to his mother's care under a protective plan. Upon further assessment by the agency, the infant was determined to be safe; the protective plan ended and the infant remained with his mother. The agency referred the family to voluntary services and the case remained open to ongoing case management services.
