Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On May 25, 2017, the agency received a report regarding a 1-year-old infant pronounced deceased upon arrival at the hospital. Law Enforcement was contacted and initiated a criminal investigation into the infant's unexplained death. Medical personnel diagnosed the infant with Physical Abuse-Abusive Head Trauma. The Medical Examiner's Office determined the official cause of death was Sepsis, due to untreated internal injuries. No criminal charges have been filed in this case, and the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infant by the mother's boyfriend, and neglect to the infant by the mother. Medical professionals diagnosed the infant with Physical Abuse-Abusive Head Trauma. The Medical Examiner's Office determined the cause of death was Sepsis due to untreated internal injuries. The infant's siblings were deemed unsafe and taken into Temporary Physical Custody. Three of the siblings were placed with their biological father and one sibling was placed in a non-relative foster home. A Child in Need of Protection of Services Petition was filed and the case remained open to provide ongoing case management services.
