Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On December 27, 2017, the agency received a report regarding a 2-month-old infant brought to the hospital with head injuries that occurred on December 26, 2017. Medical professionals determined the injuries were consistent with non-accidental head trauma. Law enforcement was contacted and initiated a criminal investigation. No criminal charges have been filed in this case, and the investigation remains open.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate maltreatment of physical abuse to the infant by the mother's friend. Medical professionals determined the infant sustained injuries consistent with non-accidental head trauma. Initially, the agency determined the children were unsafe and initiated a protective plan for the infant and his 9-year-old sister. Subsequently, upon gathering additional information, the protective plan was terminated and the agency determined the children were safe with their mother. The children remained in their home with their mother. The family was referred to early intervention services. The case was closed upon completion of the Initial Assessment.
