Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On September 20, 2018, the agency received a report regarding neglect and physical abuse of a 1-month-old infant brought to the hospital with head injuries. Law enforcement was contacted and initiated a criminal investigation. Medical professionals determined the injuries were consistent with non-accidental head trauma. No criminal charges were filed and the case was closed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical personnel to complete the assessment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate neglect of the infant by the biological mother and father and to substantiate maltreatment of physical abuse to the infant by an unknown maltreater. Medical professionals determined the infant sustained injuries consistent with non-accidental head trauma. The infant and his siblings were deemed unsafe, taken into Temporary Physical Custody, and placed with relatives. Child in Need of Protection or Services Petitions were filed and the case remained open to provide ongoing case management services.
