**Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:**

On May 6, 2020, the agency received a report regarding an 11-year-old child pronounced deceased in her home on May 5, 2020. The agency responded immediately upon receipt of the report. (The critical incident notification to DCF was created on May 6, 2020; however, due to a technical issue, the notification was not received until November 11, 2021.) Law enforcement was contacted and initiated a criminal investigation. The Medical Examiner's Office determined the child died due to a preexisting condition. No criminal charges were filed, and the case was closed.

**Findings by agency, including maltreatment determination and material circumstances leading to incident:**

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Initial Assessment completed by the agency found insufficient evidence to substantiate neglect of the child by the mother or the mother's significant other. The Medical Examiner's Office determined the child died due to a preexisting condition. The agency determined the child's 4-year-old half-sibling safe, and the half-sibling remained with their mother and the mother's significant other, who is the 4-year-old's father. The agency closed the case upon completion of the Initial Assessment, and no services referrals were made.
