Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On November 16, 2023, the agency received a report regarding a 4-month-old infant pronounced deceased in the home. (The agency responded immediately upon receipt of the report. The critical incident notification to DCF was created on November 16, 2023; however, due to a technical issue, the notification was not received until February 10, 2025). Law enforcement was contacted and initiated a criminal investigation. The Medical Examiner's Office determined the death was due to an unsafe sleep environment. No criminal charges were filed, and the case was closed.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. The Medical Examiner's Office determined the death was due to an unsafe sleep environment. The Initial Assessment completed by the agency found a preponderance of the evidence to substantiate neglect to the infant by the father. The agency deemed the infants' siblings safe, and they remained with the mother and father. The family was referred to community services, and the agency closed the case upon completion of the Initial Assessment.
