Description of the incident, including the suspected cause of death, injury or egregious abuse or neglect:

On March 7, 2024, the agency received a report regarding a 2-year-old child brought to the hospital with a serious injury. Law enforcement was contacted and initiated a criminal investigation. Medical professionals determined the child's injury was non-accidental in nature. As a result of law enforcement's investigation, the child's mother was criminally charged with Neglecting a Child (Consequence is Bodily Harm). A criminal charge is merely an allegation, and a defendant is presumed innocent until and unless proven guilty.

Findings by agency, including maltreatment determination and material circumstances leading to incident:

The agency collaborated with law enforcement and medical professionals to complete the assessment. Medical professionals determined the child's injury was non-accidental in nature. An independent Initial Assessment found a preponderance of the evidence to substantiate neglect of the child by his mother. The agency deemed the child and his 5-year-old half-sibling safe with relatives, and the case was closed upon completion of the Initial Assessment.
