Dear Chief Clerk Renk and Chief Clerk Fuller:

In compliance with 2009 Wisconsin Act 78, the Child Welfare Public Disclosure Act, please accept the Department of Children and Families' 2019 second quarter report on alleged sexual abuse of children residing in out-of-home care. The attached data addresses reports of alleged sexual abuse for the period April 1 through June 30, 2019 and fulfills the Department of Children and Families' reporting requirements under Section 48.981(9)(b), Wis. Stats.

We appreciate the legislature's interest in Wisconsin's child welfare system and their commitment to supporting the Department of Children and Families (DCF), county and tribal child welfare agencies, and the hundreds of non-profit organizations who work to protect Wisconsin children every day. Like you, we are saddened by all cases of child maltreatment and are committed to strengthening families so that child maltreatment does not occur. Wisconsin is fortunate to have dedicated and passionate child welfare workers and we want to recognize and express our appreciation for their commitment and compassion as they engage in these cases on a daily basis.

We encourage legislators and stakeholders to reinforce awareness that prevention of child maltreatment is a community-wide responsibility involving all individuals and organizations in the community, and to continue to support efforts at the local and state levels to develop a more robust and consistent array of child maltreatment prevention services. Through collaborative and data-driven analyses and discussions, we all can support efforts to strengthen the families in our state to provide safe, stable and nurturing homes for their children and help our families and children succeed and thrive.

Senate Chief Clerk Jeffrey Renk
Assembly Chief Clerk Patrick Fuller

The following is a summary of the findings in the attached report:

Number of Reported Incidents: 35

Wisconsin child protective services agencies screened in and investigated 35 reported incidents of suspected sexual abuse to 29 children residing in out-of-home care.

Dates of the Incidents:

The 35 reported incidents are estimated to have occurred between March 27, 2019, and June 27, 2019. Because children disclose abuse in different stages, it is common for children to report incidents months or even years after the incident occurred. Furthermore, in cases of alleged abuse involving non-verbal children, dates of alleged maltreatment are often difficult or impossible to determine.

Maltreatment Determinations:

Of the 35 reported incidents, maltreatment determinations were made for 20 (57%) of the reported incidents, while 15 (43%) maltreatment determinations are pending because the investigations are not complete.

Of the 20 reported incidents where the maltreatment determination was made, 15 (75%) were unsubstantiated (i.e., preponderance of the evidence indicating that sexual abuse occurred was not found), five (25%) were substantiated, and none (0%) were unsubstantiated/unable to locate source.

Nature of Maltreater Relationship:

Of the five substantiated incidents, the relationship of the maltreater to the child was an unrelated minor placed in the same facility as the child in one incident, a non-caregiver in one incident, a non-relative informally caring for the child in one incident, and strangers in two incidents. Of the five substantiated incidents, four included sex trafficking allegations.

Types of Placement:

Of the five substantiated incidents, one incident occurred while the child was placed in a group home, one incident occurred while the child was placed in a shelter care facility, and three incidents occurred while the children were placed in residential care centers.

Location of Substantiated Incidents:

Of the five substantiated incidents of sexual abuse to children residing in out-of-home care, one incident occurred in Burnett County, one incident occurred in Outagamie County, and three incidents occurred in Milwaukee County.

Ages or Age Group of Children:

The alleged sexual abuse was reported and investigated for children who were between 1 to 17 years of age. Incidents of sexual abuse were substantiated for five children, four of whom were 15 years old at the time of maltreatment and one of whom was 16 years old at the time of maltreatment.
